Teresa Coulter

1223 Roundelay Road E

My name is Teresa Coulter, I live at 1223 Roundelay Road E. And I am writing this letter in opposition to the proposed Sheetz at the corner of Main Street and Brice Road. My husband and I moved to Reynoldsburg in June and, while we are new to the city, I am familiar with this community as my mother and other family members have called Reynoldsburg home since the 1950's. I have seen progress and development in Reynoldsburg and the surrounding areas, just as many of you have, and I love to see our city grow. However, I believe allowing the installment of Sheetz at the intersection of Main Street and Brice Road is not the kind of progress we need in Reynoldsburg.

In the 1.7-mile stretch along Main Street between I-270 and Aida Drive there are already six fast-food burger joints: Steak N Shake, Rally's, McDonald's, Dairy Queen, Swenson's, and Wendy's - not to mention other fast-food eateries, as well as several dine-in establishments. I find it hard to rationalize the addition of yet another fast-food restaurant in such a short distance. In that same 1.7-mile stretch, there are four gas stations. I fail to see reason in the addition of a fifth. We have all experienced the traffic along Main Street that is, in part, the

**MINUTES REGULAR MEETING
REYNOLDSBURG CITY COUNCIL
October 11, 2021**

nature of a busy state route. The traffic, however, is compounded by the congestion of some of the businesses housed here; the fast-food establishments and gas stations are no exception. The addition of a combination fast-food-gas station complex would only further congest Main Street.

In addition to traffic concerns, there is the issue of so many fast-food restaurants in close proximity to each other and to our residential areas. Though inconclusive, there have been some studies that indicate proximity to fast-food restaurants is associated with higher body mass index in adults (Fleischhaacker, S. E., et al, 2011) and a study published by the Official Journal of the American Academy of Pediatrics (2003) concluded that fast-food consumption among children in the United States has an adverse effect on dietary quality and could plausibly increase risk of obesity. I urge the council to consider the ramifications bringing yet another fast-food restaurant into our community may have on future generations.

My final point in opposition to the installment of a Sheetz at this intersection is that the installment of two other Sheetz has been proposed, and to my understanding at least one has already been approved. If we allow three locations of the same business to come into our community, all within five miles of each other, what businesses are we shutting out? Have there been other proposals for any of the sites of the proposed Sheetz? I would hate to see Reynoldsburg lose out on other commodities, whether they are restaurants or other types of business, because there is too much of one thing. Thank you for your consideration.

Cheryl Wooten

I really appreciate the proclamation that was just given and all of the stats but the stat's don't tell it all. As with any organization serving the community, you do it out of love and compassion. I may be accepting the proclamation but I don't take this alone. It takes hundreds of volunteers and staff members throughout the week to serve the community. If you are on the board, please raise your hand and Barth would you mind standing. If you are a paid staff member, would you raise your hand. If you are a volunteer raise your hand. We have volunteers, family members who support what we do. We have equivalent in volunteers to what would be 13 full time employees, week in and week out. Extremely hot or cold, there is no in between around here, we are still trying to find that. Our team is determined with Covid and so many things going on, we want to be a part of the community. We want to provide nutrition as a service that will help people flourish as the days go on. Would you all help me in recognizing this team in their continual efforts in serving the Reynoldsburg community? Thank you.

NOW, THEREFORE, I, Joe Begeny, Mayor of the City of Reynoldsburg, Ohio, do hereby proclaim the month of October 2021 as

HINDU HERITAGE MONTH

as I urge all people of Reynoldsburg to join in recognition of this significant occasion and the achievements above mentioned.

Mr. Rizal

I am very happy to accept this proclamation for Mr. Pyakurel. I would like to thank the Reynoldsburg City Council and community for recognizing this month. We believe in peace, prosperity and progression. I would like to thank you all again so much.

Mayor Begeny

We do have an update some of our property purchases. Starting with the property across from the cemetery we have entered into a letter of intent with Daimler Corporation to purchase 5 of those acres at \$190,000.00 for a total of \$950,000.00. We are going to continue working with them on this property moving forward. We should have news on the other acreage on the property on October 25. We also have news from the Happy Dragon. We hopeful in having a purchase agreement by October 25 for the first meeting in November and to have a site plan by November 24 or the first meeting in December. I would like to invite John Stumbo to give a brief update for the Alliance project. There is no longer a K-Mart there and now it is all open.

John Stumbo

Thank you for the warm welcome we have received from the City of Reynoldsburg. Everything is working for us, the plan is working. We are interviewing architects as of today. The fundraising from personal donations from people who believe in the organization that we are a part of. Our staff continues to relocate one at a time, as appropriate for their family from Colorado to Ohio. We have hired 18 new staff members from the region and I am delighted to announce that broadening the diversity of our staff has already began. Colorado Springs is not the most diverse place in the United States but our family of Alliance is a very diverse organization and we wanted our staff to better reflect the diversity of our organization and that is actually now happening. We have sold our building in Colorado so that's final, we are leasing back one floor of that building. There probably won't be much visible progress over the winter. Civil engineers, architects and smart people start doing their jobs. We are grateful and grateful for Andrew, we will try not to throw him under the bus for bringing us here and then abandoning us once we get here. His work in providing us the opportunity to get us the

Ohio Jobs Grant., being the first non-profit to receive the grant was a tremendous encouragement to us in helping purchase and tearing down the K-Mart. We are making progress, we are happy and no complaints. It was fun to be a part of the Tomato Festival and we will look at more opportunities to volunteer and get involved with the community. Got to do a walk about with Councilmember Lawson-Rowe. We are grateful for the opportunities we have to get to know our community and will keep working toward good citizenship with you. We are happy to answer any questions that arise and thank you.

Mayor Begeny

I do have a few events to go over. We have our Community Town Hall this Wednesday at Baldwin Middle School. This is sponsored by the Reynoldsburg Police Department, the Reynoldsburg City and School district. We will discuss how to make our community safer and how to build between those communities and the Police Department. We have our Community Clean-Up Day, October 16th from 9am to 1pm. I'm sure I will see all of Council out there at home point helping to volunteer with one the activities including, shredding, pill disposal, flag disposal, etc. Those will occur at JFK Park and hazardous and bulk material will all be Civic Park. I look forward to seeing all of you there. We have partnered with The Ohio State University sustainability program, there will be a community meeting on Wednesday, October 20th from 6:30 to 8:30 on Zoom about how Reynoldsburg is going to be taking steps to be a more sustainable City. I wanted to give Council an update on our revenue. As of October 1st, we have surpassed what was accumulated all of 2020 and are on track for a record breaking year due to a number of businesses, we are at 55 that have opened since January of 2020. Our spending has increased with some of these property purchases but we able to put that money back in to our pockets as well as the other ones we are planning. We are in great shape looking forward and moving in to 2022. It is my hope that the first meeting in November we will be able to bring a budget to you so you can look and review and we will have bigger and better things for 2022 as we move forward as a City. Thank you.

Presentation by the Auditor of State's Office

**Tory Huebner
Central Regional Liaison**

As many of you may know the state auditor does audit all state and local government entities. That's about 6,000 people throughout the state and only between 4 to 6 people qualified to receive the award with distinction. This is a really great honor that your fiscal department has earned multiple years. At least the three years that I've been here. In order to receive a clean audit report which means that you file your comprehensive annual report timely, your gap basis and you do not have any ethics referrals, bank reconciliation issues and no findings for recovery. It also means you have great public records policies. Which is a big thing in our office. So on behalf of the auditor office, I would like to present Auditor Cicak with his award.

Auditor Cicak

The Auditor of State reward with distinction represents reliability and consistency. It represents producing results for our community and the integrity and honesty of our work. Nothing that we do is easy or fun but what we do is right. I want to thank deputy auditor Stephanie Cornell, Secretary Carrie Schehl and especially my finance manager Joni Crawford. My appreciation to Brenda Browning who retired, she did a lot of work for us last year. We are hoping to go forward in 2022. 2020 was such a rough year. It was the first time we did a single audit and it included federal funds. The federal funds, we had over 50 meetings from the Auditor's office. It would be one thing if we had set directions that were stable, but they changed every month. I want to thank the Mayor and City Attorney and the team that we had. We help the city businesses with the \$10,000 grants we did this as a team and I accept this award on behalf of the City, thank you.

A MOTION TO APPROVE A RESOLUTION RECOGNIZE STORMWATER AWARENESS WEEK

Director Dorman

This motion was brought forward to counsel tonight. It's stormwater awareness and this was somewhat fitting with what we have dealt with over the past several years in the city. Being a national week of awareness it brings to light the issues out there with climate change and other things going on with development. We felt this is a fitting resolution to bring forward to Council. There's been a lot of effort on staff and with our engineering group to find solutions to benefit the city.

Liquor Permit

LIQUOR PERMIT FOR AESH USMAN LLC

Chief Baker

The first investigation was completed for a transfer of a liquor permit. Held by MSR 2009 Inc. that was doing business as Fuzzy Cigar and More at 1750 Brice Road. The permit is being transferred to Aesh Usman LLC, who will continue operating the carry out business at the same location. The permit is for a C1 C2 class which is for sealed containers for carry out only. There been no alcohol related police calls over

**MINUTES REGULAR MEETING
REYNOLDSBURG CITY COUNCIL

the past two years. The Ohio department of liquor control advised that a tax hold could prevent this permit from being transferred and that the applicant will need to get this satisfied to allow the transfer. I do not recommend that we request a hearing for this permit application from being transferred. That's the standalone carry out next to century city.

LIQUOR PERMIT FOR SUNRISE GROCERY MARK LLC

Chief Baker

This is for a new liquor permit. Application is for sunrise grocery Mark LLC, 5559 East Livingston Ave. The Business will be operated as the Sunrise Grocery Mark and the Blacklick Plaza, the business is owned by <INAUDIBLE>. The permit is for a C1/C2 class. Which is for beer wine and mix beverages sold and sealed containers for carry out only. This is a new business so there are no prior calls related to this business, however there have been many police calls to a carry out in that same location. The department of liquor control advised our investigator that the owner has no other active liquor permits and they know of nothing that would prevent the liquor permit from being issued. I also do not recommend that we request a hearing for this application.

Councilmember Baker

Last month a restaurant came in asking for a liquor permit and we voted it down because they were trying to get around adding an additional liquor permit. Which would put us over the amount of permits. Assistant teeth Grizzell let us know that they have been trying to drive out the crime in the area. How would this play into that factor because they aren't that far from each other. What's the difference between granting this one verse that one last month?

Chief Baker

This one is allowable without any exceptions to the current law. The state has laws in place that limit the number of permits within a certain area, this one is allowable

**MINUTES REGULAR MEETING
REYNOLDSBURG CITY COUNCIL
October 11, 2021**

under the law so there's nothing really we can object to this application. I was not here during the last meeting so it must've been a different type of permit that put the number of over for that area. Liquor control is not telling us that this is too many for that area.

City Attorney Shook

Yes sir it's just a classification where we haven't received the max on the city. The one that was considered a couple months ago, that one was an application for a permit where we had already reached the maximum amount allowed in that area and the only way to get around that is to meet the development project rule, and in that case, Council determined that the permit application was not a development project.

Councilmember Baker

OK I just want to make it clear because like I said they are not that far apart from each other.

Chief Baker

From what I know about the other permit, that was allowing consumption on site. This permit is specifically for the sale of beer wine and mix beverages in a sealed container. So you have someone going into the store buying the sealed container and taking it home. That is one of the differences in that type of permit, without having the application in front of me I'm not sure what the classification was for the restaurant but I would assume it was different because it's for consumption on premises because then you have people driving.

Councilmember Baker

Well for me booze is booze. Whether it's beer, wine or liquor. You can go into a restaurant and get liquor to go with a food order, so to me it's no different than going in and buying a six pack or going to a restaurant and getting a couple margaritas. That's the reason I asked the question.

The Auditor's office has submitted the budget by department and classification for the months of July and August 2021.

President Jenkins

Noticed that there is a website called checkbookohio.gov. I'm not sure if anyone has heard of that. But it lists the City's expenditures and I noticed that Reynoldsburg schools are listed there amongst other cities and counties in Ohio. I just had a question if we were ever on this website or why we don't participate.

Auditor Cicak

Checkbook Ohio we used to belong to it. Our system does not mirror up to the data perfectly with it. It's something we could look into in the future if you would like us to do so. We did have incidents before where data was reported and it was an error and that's something we don't want to have. We accurately report numbers, but it's something I could look into. I'm not sure if there is a cost associated with it.

**MINUTES REGULAR MEETING
REYNOLDSBURG CITY COUNCIL
October 11, 2021**

President Jenkins

Do you know the last time we participated in it? When I was on the website I couldn't find anything for the city.

Auditor Cicak

The last time we were on it was probably 2018.

President Jenkins

If you could look into that, I noticed the schools in some other cities throughout Ohio.

Auditor Cicak

There are numerous other software companies that come and try to sell things to the City all the time. One is open government which is almost like Open Checkbook and I looked into it. They did Mansfield and the cost was about \$1500 a month. When I asked how many people actually looked at it, they never called me back. I wanted to see what it cost per . . .

President Jenkins

And that would be important to know, to see who is actually using the data and looking at it. You don't want to be a part of something that isn't being utilized but you also want to have transparency as far as our city government.

Auditor Cicak

There is nothing more transparent than the Comprehensive Annual financial report and we are the only city entity in Reynoldsburg that does that. That is the measurement of art for the state and the pinnacle of financial reporting.

Development, Parks & Recreation Committee

This is the Development, Parks & Recreation Committee meeting for October 11, 2021.

Members in attendance are: Councilmember Cotner, Councilmember Lawson-Rowe, Councilmember Pyakurel, Chair Baker and President Jenkins.

An Ordinance Authorizing the Mayor to Enter into a Contract to Purchase Real Property Located at 7277 East Main Street to be Used by the City of Reynoldsburg, and Declaring an Emergency (First Reading 9/27/2021).

Director Bowsher

After reviewing and coordinating with the EPA as the Mayor had mentioned in his update, we thought it was in the capability of the City to be able to do the remediation ourselves so the City will be purchasing instead of the CIC for this parcel in the next. Just wanted to give that quick update on that. We will probably be getting a few more liquor license as well with the new uptick in our population and now we're over 40,000 so that will give a little extra. They break them down by warehousing distribution and as the cheap was saying it's a difference, may not be a difference for you but there is a difference between opening it on premises or taking it home and doing it.

Councilmember Cotner

It says to be used by the city of Reynoldsburg, what's the plan for this property?

Director Bowsher

The current plan is that we have additional dollars set in stone for the demolition of both of the buildings to clean up the property and Take away some of the contaminated soil that is there that the EPA found. You'll be working with a developer either through RFP or another process to find a suitable new structure, new development on that parcel.

**MINUTES REGULAR MEETING
REYNOLDSBURG CITY COUNCIL
October 11, 2021**

Councilmember Cotner

So this doesn't obviously include demolition and clean up. What's the estimated cost of those items?

Director Bowsher

It does. It includes that, that's why we had 30,000 additional dollars added into the contingency for the demolition and cleanup of the site.

Councilmember Cotner

This first parcel is half an acre about?

Director Bowsher

I don't have that data in front of me but yes I would say you're probably right.

Councilmember Cotner

\$720,000.00. That's a lot of money for a contaminated place that we have to clean up, build and resell. And we're selling the property out by the cemetery 400,000 an acre?

Director Bowsher

\$190,000.00 per acre. That's five total acres that we are almost getting all of the proceeds back.

Councilmember Cotner

Yes. I liked that idea, I thought it was great but \$720,000 for a small parcel that needs to be cleaned up and re-sold. I have some concerns about that, that's a lot of money for that little piece of land.

Director Bowsher

I don't disagree but I hope you would agree that the amount of money that the city has put into that area has not been some small fee and I think by cleaning up this parcel among some of the other parcels you're going to create a better walkable

**MINUTES REGULAR MEETING
REYNOLDSBURG CITY COUNCIL

downtown and I think the city has to take the first lead in the investment so the other developers can follow.

Councilmember Cotner

Which I think the city has done, there has been a lot from the lots of the happy dragon to the plans I just think that's a lot of money on that little parcel, that's one of the most concerning facts about that and then the other not cheap amount on that piece back there to clean up. So I just have concern spending that much money on those little parcels with no real plan in place and potential challenges still.

Councilmember Strickland

I like your statement when you said the city does have to take a lead on bringing new development into the city the way we would like for it to be, to bring those new development partners in and also making sure that we continue to grow our city into the city that we want. Thank you for the work that you and the mayor and whoever else has been working on this. Thank you.

Councilmember Baker

The figure you said it was 720,000, and that includes demolition and cleanup?

Director Bowsher

No, that is just the purchase price.

Councilmember Baker

OK I'm sorry, I just couldn't remember. And how did the city come to that price?

Director Bowsher

Just like the other two parcels, PNC Bank and I as well as the happy dragon had an appraisal done and the purchase price we feel is still in line with those appraisals, both PNC and happy dragon and now this parcel here, those combined.

Director Bowsher

This is the second phase of the Eastwood Development. There are some changes coming soon to the planning commission. All 50 foot lots, owner occupied, don't worry homes for rent at one point but since I've all backed out. This is for the TIFF specifically for the city to collect the property tax on this proposed improvement, including the future expansion of Summit Road and the addition of bike trails and sidewalks that go along adjacent to that as well as traffic coming mechanisms, probably a signal roundabout at Summit in Main as well. We have known that we have needed that for some time. This is another way for the city to be able to build infrastructure as we continue to grow to the east. Just ask that you support that. We're going to work on some additional estimates but currently right now we are looking at from the developers about \$14.5 million in revenue over the 10 year. For this property for the second phase.

Councilmember Cotner

Putting a roundabout at Summit and Maine is something that is discussed? What would the state's involvement be with that?

Director Bowsher

About the same is anything we do there on Main Street. We coordinate with them but when it is in the city it comes underneath our purview. This is not the first time that a

**MINUTES REGULAR MEETING
REYNOLDSBURG CITY COUNCIL
October 11, 2021**

roundabout would've been proposed on a major thoroughfare state route. I simply say that because it's been discussed in some of the traffic meetings we have had with Eastwood. Whether that is a roundabout there or a signal, when we get into engineering we will decide that. I think that Council will have a decision to make as well as the engineers but simply just providing the options of what has been discussed at this point.

Councilmember Cotner

I know that we would be quite a ways down the road but that seems like a pretty big undertaking and knowing that it took the state, I don't know how many years to continue dangling the carrot out in front of us for paving Main Street, I just wonder again what their contribution or assistance would be or whether that all falls onto the city.

Director Bowsher

This would be something even with the signal that would fall on the city.

Councilmember Baker

I have a question about the roundabout I know their discussion about putting a light there because I remember around 2018 a resident reached out to me about talking about putting a light there because of it's hard to turn if you're going left out of Summit on Main Street, I think a resident almost got hit trying to make that turn. That was something I asked back then. ODOT said there wasn't enough traffic that would warrant one however, now that we are growing and that development is going in it's going to warrant one. Was there any inquiry about that?

Director Bowsher

We will work with ODOT as we continue to move through that process. There's always great funding opportunities and will continue to work with ODOT as best as we can.

**MINUTES REGULAR MEETING
REYNOLDSBURG CITY COUNCIL

Mayor Begeny

Yeah I think we are looking at this to take a little bit of what we are experiencing with Waggoner Road as well. I think by the traffic studies they would probably say that a light is not warranted at Priestley and Waggoner, however, we feel if a centrist of the community is willing to do so and one thing that we've continuously heard is planning ahead for the infrastructure aspect, a traffic light or roundabout at Summit would be something that we would do before the traffic gets to the point that it has an Waggoner Road. This is a preventative action. We can continue to take the steps as we expand out east.

Councilmember Bryant

I may have misunderstood at some point, but I thought that you couldn't put any roundabouts on a state route like that.

Director Bowsher

You can. 161 There is at Plain City is a really great example where they have the new Costco over there, that's just one of them and it would be a similar size because it's two lanes each way. Just in his example that we've talked about with the agency. I didn't mean to bring up the debate about roundabouts, I just simply was saying we are utilizing these funds to plan these traffic improvements before it becomes a problem.

Councilmember Baker

I think you'll prohibit the trucks that are coming from logistic companies out there to take a different route instead of going straight through town. I'm just putting that out there.

An Ordinance to Amend Chapter 958 Stormwater Charges, Section 958.06
Equivalent Residential Unit Assignment in the Code of Ordinances for the City of
Reynoldsburg, Ohio

Director Dorman

It's that time of year unfortunately where we start talking about the Columbus fees that technically get passed along to us and then all this burden satellite communities pay so this is the Columbus rate they charged us for stormwater. We obviously pass that along, we get a bill from Columbus for water and sewer usage. We do use some of this fund actually to reimburse ourselves for our own work as we do stormwater improvements, there's a small percentage on here as well. It gets put into an enterprise account, again that account can only be used for stormwater work. We can't use this money and move it to pay for something in parks and rec or even in the street department it has to strictly be for stormwater. Once again, I believe next council meeting will be discussing water and sewer as well. Years ago clean water act was passed and there were all these mandates for communities to be critical of design and when it comes to designing some things pre-and post-construction so the rule of thumb is when you develop a site, Say it's a cornfield, the water cannot be at a higher rate than it did when it was a cornfield even if you paved the entire lot. These rules were put in place and what they came up with was the typical E are you in that as your previous area basically there's a standard kind of formula to determine that for residential units. They all pretty much pay the same ERU. This would be a \$.24 increase per month per residential unit. I know it seems like a lot but it's fairly small. Your commercial users are going to pay a fairly significant wage compared to what a residential unit has.

Councilmember or Strickland makes a motion to forward the ordinance to Council for a first reading. Second by councilmember Lawson-Rowe. Motion carries.

Finance & Administration Committee

This is the Finance & Administration Committee meeting for October 11, 2021

Members in attendance are: Councilmember Baker, Councilmember Bryant, Councilmember Strickland, Chair Salvati and President Jenkins.

An Ordinance to Transfer Funds for the Purchase of Real Properties at 7277 East Main Street and 1415 Water Street to be Used by the City of Reynoldsburg, and Declaring an Emergency (First Reading 9/27/2021).

Director Bowsher

This is the follow up ordinance for the funds to be appropriated for the purchase contracts you recently sent to Council.

Councilmember Salvati makes a motion to amend the ordinance from \$850,000.00 to \$874,580.00 to cover the demolition costs. Second by Councilmember Bryant. Motion carries.

Councilmember Salvati makes a motion to forward the amended ordinance to Council for second reading and emergency approval. Second by Councilmember Strickland. Motion carries.

An Ordinance Authorizing Local Aggregation of Retail Electric Loads in Accordance with Section 4928.20 of the Ohio Revised Code

Mayor Begeny

As discussed in the last meeting we talked about the preferred vendor of the electric aggregates and once again with us is Volunteer Energy to answer any questions you may have.

Councilmember Salvati

I read the ordinance a couple times, it's fairly vague on what it will cost the consumer, I believe all the spaces were left blank and I was just curious how that will work with the gas aggregation it was like 8% less than Columbia Gas. So obviously

**MINUTES REGULAR MEETING
REYNOLDSBURG CITY COUNCIL
October 11, 2021**

this one is a little different but I was curious what the rate would be. If you had any details on how that will work.

Volunteer Energy

Simply because of the market and how it fluctuates so frequently, it really wouldn't be relevant to give a price at this time because that price could change by tomorrow. I will work that out with the mayor and the Director and if it needs to go to Council to approve the final price then that's what we will need to do but the objective will be prior to executing the agreement that the price that we put out there would be less than the price to compare from AEP. That is the goal.

Councilmember Salvati

So is this contract different than if we lock in a price for a year or two years or whatever it is, I know the gas one is a percentage and that can fluctuate on how Columbia Gas price fluctuates I assume but this one's written differently correct?

Volunteer Energy

Correct. It's a fixed cost. Once that cost is determined it would stay the same per kilowatt for the duration of that agreement whether it's 12 months or 24 months.

Councilmember Salvati

And that is independent of if AEP fluctuates?

Volunteer Energy

Yes AEP will fluctuate it typically does about four times a year. But this fixed price will not fluctuate.

President Jenkins

So if your power goes out then the resident calls your company or electrical wiring or a transformer or any of those sorts of things who services those problems?

**MINUTES REGULAR MEETING
REYNOLDSBURG CITY COUNCIL
October 11, 2021**

Volunteer Energy

AEP would still be responsible.

Councilmember Strickland

When will we know what the fix priced will be, is there a time limit or a timeframe?

Volunteer Energy

I believe the third reading is around November 8 so we will give our bid or quote on that rate prior to November 8. I think there needs to be some discussion as to locking in that price. We will present a price before November 8, that price will change because the market changes. Then we will leave it up to the administration and counsel to lock in that price prior to the start date of March 2022.

Councilmember Salvati

Can you educate why this electric contract would work so much differently than the gas contract?

Volunteer Energy

It's just a different commodity, I can't answer that in detail. I just know that you are totally separate because of the markets. Gas is something that we are able to do a guaranteed savings on. The fixed price with the electric, it's just a different commodity treated a different way.

Councilmember Lawson-Rowe

I know when you were here last time we had discussions about gas and there was a lot of discussion about opting in and opting out, would that hold true for electricity as well?

Volunteer Energy

It would be the same type of program, it would be an opt out program as well.

**MINUTES REGULAR MEETING
REYNOLDSBURG CITY COUNCIL
October 11, 2021**

Councilmember Cotner

To follow a little further with council member Lawson row, the resident can opt out at any time they want? So if we've set the rate and volunteer has guaranteed that rate and somehow during that term the AEP rate or another supplier that that resident would choose, if they find something that would be significantly lower or any lower at all they can call and cancel right then and switch to the lower and better rate? At any time just because they want to.

Volunteer Energy

Yes. Anytime just because they want to. They can opt out at the beginning of the program or anytime during the program no fees or penalties.

Councilmember Cotner

What we are hearing a little more clearly is that volunteer takes a risk on this by saying, and so does Council, you guys are the experts and you know where the market is moving a whole lot better than any of us would. You're supplying us with what you believe would be the best rate but if something changes in the climate in the commodity and AEP goes up, the resident still comes out ahead because you're locked in at that lower rate but if AEP goes down they can go and choose another supplier, they can opt out just for that reason six months in they are not locked in to this at any time whatsoever?

Volunteer Energy

That is correct.

Councilmember Salvati makes a motion to forward the ordinance to Council for a first reading. Second by Councilmember Strickland. Motion carries.

An Ordinance Authorizing the Mayor to Establish a Process and Eligibility Requirements for a Grant Program Directed Toward Female, Minority, and Veteran Owned New Businesses in the City of Reynoldsburg and Appropriating Funds

**MINUTES REGULAR MEETING
REYNOLDSBURG CITY COUNCIL
October 11, 2021**

Director Bowsher

This ordinance is before you for the first of three reads to establish a baseline and a process plus an application for this grant. It will be upwards of \$10,000 for these applicants that would be expanding a current existing business or relocating or locating a business within Reynoldsburg. I think this is a great effort. I know this was brought from Councilmember or Strickland and I basically took her thoughts and ideas and put them on paper and now we have I think a great ordinance establishing this and our requirements. I'd be happy to answer any and all questions relating to this.

Councilmember Strickland

First of all, thank you Director Bowsher and I know councilmember Baker and I've been working along with me on trying to get this together so thank you. I do have a question regarding how the funds will be established. Will it be divided up amongst the, now we have the minority, female and veterans, how would that money or funds be divided up among those three different groups?

Director Bowsher

We don't have a set requirement, it's simply that we're going to take in the applicants and then we have a matrix based on need that we have right now. A lot of it is going to be first come first serve as we've set aside I believe 200,000 excuse me 100,000 for 2021. And we can come back and do this again sometime after January.

Councilmember Strickland

What I would like to see happen is really try to establish some type of process that deals with dividing the money up amongst those three groups. I want to make sure that each group female, minority and veterans have a set amount of money that is set aside. Once that money is gone, it's gone until you have some type of process for the next group. Does that make sense what I'm asking?

**MINUTES REGULAR MEETING
REYNOLDSBURG CITY COUNCIL
October 11, 2021**

Director Bowsher

Yes, absolutely. My question would be what if we get zero applicants may be for the veterans and we get 10 applicants that happen to be female and we run out of money because we've saved it for the other piles. What would you want at that point?

Councilmember Strickland

Hopefully we are actively going after these businesses.

Director Bowsher

There's already been a huge push, I think we have six female minority owned businesses that are already looking to apply so I wouldn't want to pay ourselves to where we can't give the people the grants that have applied first where we have pushed aside money into different categories. So I would just caution you on that.

Councilmember Strickland

That is fair, I would like to be a part of the conversations.

Mayor Begeny

2021 is going to be different because we are already in October and there's going to be limited time to get the application in but perhaps when we look specifically to 2022 maybe we can do it X amount of dollars per quarter. When I found that we are doing the Cares Act grant funding there were a lot of people that said I wish I would've known so maybe when we get that first batch out there for 2021 that will help generate more awareness instead of doing it all in January. Maybe we appropriate the funds but we do it on a quarterly basis to make sure that the application. Opens at various times to make sure that we expand the network as much as possible. That is a logical solution to that as well.

Councilmember Bryant

I suggest some sort of points system. Because that's three categories you have one person. Dividing it into the three categories may not be great because if you have

**MINUTES REGULAR MEETING
REYNOLDSBURG CITY COUNCIL
October 11, 2021**

somebody who's a female minority veteran that wants to start a business they have all three boxes.

Councilmember Baker

But even if they do hit all three boxes you could put something in there if they qualify for one so you're going to get some money so that way one person is not dipping in the till two other times. To make it fair. I see what you mean they could hit all three but if you already hit one of the three you're going to get money just because you're all three doesn't mean you're going to get three different checks.

Councilmember Bryant

No, I am saying that if we market down to three different categories then what do you do?

Mayor Begeny

I think at that point we would, depending on the total number of applications we would go through the process to make sure that there is no one over represented area overall and try and make it equitable all the way across. Because we have the discretion as we go through this, I think we will be able to maintain that process and like I said we can still work it out between reads one, two and three.

Attorney Shook

I think that we need to be a little careful if we are talking about trying to set hard numbers or percentages based on groupings within these classifications. The key here is to be equitable and currently the language provides you discretion for that equity and I think similar to what we do with the small business grant program with the cares act fun in 2020 it might be appropriate to put into the ordinance a committee that will be part of the selection process which could of course include a member or two of Council so that you're at the table that might help to ensure equity that Council is looking for.

**MINUTES REGULAR MEETING
REYNOLDSBURG CITY COUNCIL
October 11, 2021**

Councilmember Salvati

That's something we could look at for 2022.

Director Bowsher

I would definitely expect these to really be utilized though, I think the Mayor and I we really discussed early on how much funds it was surprising by how much we need this.

Councilmember Baker

I just wanted to agree with you and this is needed. There is going to be other entities that use this idea and take this blueprint and use it in their community so I agree with you.

Councilmember Salvati

Personally I think that rather than say there's a certain amount of money for each category we should definitely collect the data it and if they are skewed towards only people that have applied or women then that should tell the city that you need to go out and try and find or better message to the minority community that it's available or better message to the veteran community that it's available and the same goes if it's skewed any other ways. The data should be used to see who obviously hasn't heard about it because it's free money.

Councilmember Cotner

Any thought about, as Councilmember Baker just said. That we want these people to be part of the community, making sure that there is some longevity that they stay. This would be eligible for a home business or an internet business, we would not want to see somebody we give \$10,000 to and they move out in six months. Anyway we can put any kind of must stay in the city for at least one year or something along those lines.

Director Bowsher

Potentially, I would add, it's not an outright 10,000 it's based on accrued cost.

**MINUTES REGULAR MEETING
REYNOLDSBURG CITY COUNCIL
October 11, 2021**

Councilmember Cotner

Absolutely. \$10,000 can go a long way when starting a business or expanding a business and we don't want to see it taken advantage of where someone starts up some home base or whatever it may be and you're there 6 to 8 months and you're moving out of the city that quickly. Small business stuff and not trying to make it tougher on them but if they don't make it that's one thing. We're not talking about specific brick and mortar or something.

Attorney Shook

I think that could be done. I think we get creative here with the language and application and the qualification requirements. Whether the business is staying in the City. There may be a course if the business goes into bankruptcy.

Councilmember Cotner

With 6 month reviews, I don't want to put a burden on anything or the small business, we want them to succeed. What we don't see is in 6 months they realize their lease is ending and they're ready to go to another community and 8 or 9 months later they are on the same lease but taken a new lease in another spot. If you left within a year you've got to pay back some or all of the grant from the taxpayers' dollars.

Councilmember Baker

I was just about to make that same point because I do agree with you on that, this is public money and we are trying to increase our businesses here. And if a business closes up shop or moves or whatever they should be something where they have to pay some of the money back.

Councilmember Cotner

Not if you claim bankruptcy. I'm just worried about the one who lease is about up and you move out and it's the same business just 2 miles outside of the city.

**MINUTES REGULAR MEETING
REYNOLDSBURG CITY COUNCIL
October 11, 2021**

Director Bowsher

Between this meeting and the next, I will get with attorney Shook to come up with a longevity clause that we can put inside of it.

Councilmember Lawson-Rowe

I wanted to share a couple of items, one we received an email from the Lions Club. April Darling wanted me to remind my Council colleagues about the Lion's Club annual auction that is slated for October 14th at 6:00 PM. At station Lions Building. Second, the Civilian Review Board that was fully endorsed by the FOP, the Citizens Police Academy was birthed. We have two more classes before we are finished and I would like to invite Council and neighbors to participate in the citizens' police academy. It's a great program. You learn about the training and get a bird's eye view of what our officers are faced with. I am sad to say I started off strong but eventually died, they said what happened and I said I would call the Police, they said you are the police! So hats off to you Chief. Third, you see my pink flower, its breast cancer awareness month. 1 and 8 women are diagnosed with breast cancer. I would like to request that everyone get your mammogram and ask your loved ones to get their ones.

Mayor Begeny

The community Halloween party is this weekend here at JFK, from 6 to 9. There are going to be lots of activities and costumes galore. Candy for the kids and kind of a trunk or treat. I hope we can see as many people from the community and special shout out to the Reynoldsburg Community Association and their work. There is no Ohio State game this weekend so there will be plenty of events for those of us that are going through withdraw. So can't wait to see everyone there on Saturday.

Councilmember Strickland

I want to provide a public shout out to Mr. Joe Swartson. Councilmember Bryant and I had the opportunity to visit his history classroom. The 11th and 12th graders had some really good questions about what's going on in the City. I was really surprised, questions about roads and sidewalks. I just wanted to say he is doing a great job with our young people. I would encourage everyone to visit our schools.

I am here to talk with you about a recent event. I get a call from my ten year old daughter, telling me that the police were there, I asked why and she does not know. I call my oldest daughter and she does not answer. A few minutes later I get a call from an unrecognized number and it's the officer. He lets me know that the police have been called because my business trucks have been parked in the street for more than 3 hours. What? I started a business last year in the middle of a pandemic because it was necessary for me to pivot with my current role. I was frustrated that the police were called for such an infraction and that my neighbor, who had only said "cool idea, how do I sign up". They didn't knock on my door or leave a friendly note. I have traveled to Cleveland, Bucyrus with this

equipment and have gotten nothing but friendly reviews. Oh my gosh, tell me about your business, how did you get started. Yet in my own backyard, the police are called. So I am asking Council, is it really necessary to use public resources like that. Is there something we can review, so that there wouldn't be such a frantic response from a single parent who raisin three kids, luckily my 18 year daughter was there and able to compose and handle herself. That is my ask and concern and thank you for your time.

Councilmember Baker

What is your business?

Ms. Johnson

I am glad you asked. After your trash is collected we come and sanitize your trash container. We also offer commercial service for dumpster cleaning. We offer a curbside solution for the flies, maggots and odors from a trash can.

Councilmember Strickland

Thank you for coming this evening. How big are your trucks?

Ms. Johnson

I don't know the exact size but they do both fit in my driveway. First of all the officer was super nice, he said it was an awesome idea and just asked that I park the trucks in the driveway and said it will solve the issue. It was a pleasant experience when all said and done. The range of emotions you feel when you get a call like that and to find out it was all for something so minor. That was ridiculous, send me a post card, write a note, don't send the police to my house, you never know what could happen.

The reason I am up here is these masks, I don't see the City doing anything about it. Not being active, not being proactive. I am very passionate about this. I do believe personally that it is at least discussed and a decision is made on it. It shouldn't be political, I don't want it to be because we are worried people are going to be mad at us for doing it, that is what the council is for and I count on that. So please give it a thought, discussion, let's be proactive and slow this pandemic down a bit.

MINUTES REGULAR MEETING REYNOLDSBURG CITY COUNCIL September 27, 2021

Linda Young (email comment) **7675 Godfrey Circle**

My name is Linda Young and I am a Reynoldsburg resident living near the intersection of Palmer and Graham Road. First I would like to speak to the intersection of Palmer and Graham in regards to the five way discussion. To make a left turn, south, on the gram from Palmer the light at the five way must be read, coming north, so that there is a break in the traffic pattern. If there is no stoppage such as a continuous turn from the five way, coming north on Graham there will be no break in traffic for those on Palmer turning south. This will definitely cause a safety issue. As of today, with the main street project underway, you are at the mercy of a kind driver going southbound to let you out at the traffic from 3:30 until 6:30 is backed up past the Methodist Church. Again, you still need to find a break in traffic coming northbound to make this left. As to the five way, I, like most residents, are frustrated with the traffic flow there. I travel through that intersection multiple times per day. I am retired and can travel anytime I wish. If I can make this clear, I see this issue almost every day. A driver is coming north on 256 and desires to make a left turn onto Livingston. They pull out where they can't see the light, it changes and they freeze. Those of us coming south on Graham and angling left onto 256 stop, wait for the cars pulled out way too far to go either ahead and make a turn, try to back up, or just sit there and make two lanes of Graham Road traffic merge to get around the vehicle. Last week they set a record with four cars in the intersection. Lots of cars honking. The other issue is cars in the wrong lane northbound on 256. More car honking as they jump into another lane. I've been traveling this road for so long that I am always hanging back to see what happens in front of me. You are having this discussion because you already know these issues. I wish I had an answer, but I am afraid if cars can't decide which lane they should be in now, an extremely busy five way lane will not illuminate the safety hazards we have now. I've been a proponent for some time now for widening the little bridge on Graham after seeing mothers pushing strollers across it. I understand this has already been addressed. Thank you! With that said I am hopeful you will keep the gram and Palmer intersection in mind with making your decisions. Thank you.

Mayor Begeny

I wanted to share that because of his connection to Reynoldsburg and choosing this community as his home in the Brice Road Corridor. He will be deeply missed by this community. He help my son through some medical issues along with a Number of other community members. Having said that I have some other things I would like to update you on. For those of you that were not able to attend the Town hall, we have gotten some news and information, at your desk you should have the Packet that was received by those who attended the flooding Town hall as well as some floodplain maps to the area in question. We had FEMA, The national flood insurance board in the Franklin County management and homeland security presentation there. What it really comes down to is not only what is going to happen there here soon but in the next few years, given the challenges in that flood zone area any potential of excessive rain. Roundelay Work has already begun as far as storm sewer work in that area. It was shifted from another location after last year's flood. Earlier this morning we had a conversation with the engineers at EMH&T to be in the work of a comprehensive study of Reynoldsburg portion of the Blacklick watershed. And the neighborhoods it impacts, specifically Briarcliff. We have talked about a number of different things including engaging in conversation with Untied States Geological survey to install a detection system. It's exactly what it sounds like. He would have something placed in the Blacklick water shed so when the water gets to a certain level I will coordinate with the national weather service to alert the residents in the area that they are detecting potential flash flooding. While it may not prevent the flooding, it could allow residents to make any changes, moving cars, putting a floor plug in. Things like that to minimize any potential water damage in that area. We have also engaged in conversation, that you will see a little bit later tonight with emergency management and flood mitigation to find solutions

including the potential for residents to sell at market price to the city with the help of FEMA for demolition to eliminate the flooding overall. That was the recommendation of the individuals that were here and are experts in their field. It is not a short process or one that anyone wants to take lightly. However a number of residents did express interest at the meeting and more specifically in the days that followed. There are other options that I did want to come up with but are not going to be available at this time. One of the more common options was the dredging of Blacklick Creek. Dredging itself was not considered a viable option by any of the organizations that were represented, however continuing to open up the stream way and removing debris in that area, we are taking steps on our side and doing that. The other one was not as feasible of a process and that was the whitening a Blacklick Creek. There are other issues dealing with the potential development in and around, specifically north of the city of Reynoldsburg. That is outside of our jurisdiction and there have been conversations with the city of Columbus but it is a very large watershed. It would be an astronomical financial consideration for all of the cities involved. Is there any questions I am happy to answer them, I will continue to keep council and the residence up-to-date as we receive more information and what the processes for a comprehensive plan And establish some legitimate options to minimize and if we can correct the issue.

Councilmember Strickland

Is this the most up-to-date map that you were showing in the packets?

Mayor Begeny

Correct. FEMA released the map from I believe 2012 was the most recent. Again, we know it takes a long time. Those are the most recent, I don't believe for the specific area will be available for a decade more. However, Individuals can contract and look at individual engineering if they want to be added to or in some cases removed from the floodway. The majority of the house is listed on the eastern side of White Butterfly, Promise Court and Peggy's Cove are all listed in the floodway. If you could imagine that area as open land, none of those houses would've been allowed to be built as it is now with the standards that we use. So that is one of the reasons that FEMA is Recommending going with more of a flood mitigation because there is not going to be an

Minutes Acceptance: Minutes of Sep 27, 2021 6:30 PM (Approval of Minutes)

**MINUTES REGULAR MEETING
REYNOLDSBURG CITY COUNCIL

option to prevent future flooding. The best they can do is minimize it. Again, the properties would be removed at market value not at a discount or anything like that.

Councilmember Strickland

So those homes who were impacted that may not be on this particular map, since it's from 2012, they will have to contact who?

Mayor Begeny

At this point in time we recommend reaching out and getting in contact with my office so that we can create the database of those who are impacted, not just in that area but in Reynoldsburg. We can maintain and track what's going on. There's a big difference between water coming through the floor versus through a cracked window or a hole in the basement. It's easier for FEMA and the City to understand what the property assessments are as well with that information rather than without. We did get a number of people to comment and bring that information in, while Facebook is a great tool to allow information to be made available, if that information is not sent to the City at some point, it's hard for us to keep track of it. What we continue to do is notify residents through the contact information they give us but also we will go out letters right at the door if we need to and we will do that when we have more information to present and be made aware of.

President Jenkins

The form that is in the packet, application for evaluation for destroyed or damaged real property, Who is this form for because we have people who are in a flood zone and those who are not in a flood zone.

Mayor Begeny

That would be for any resident in the Franklin County side and there's a converse one for the Licking County is available. Most of the responses have been on the Franklin County side. This would be if any house is damaged for a particular reason. For example there are 4 houses out there right now, 2 of which are victims of fire. Any time the auditor's office, Auditor Stinziano, would actually come out and evaluate the property to give you

a lower property value during reconstruction so you assessed a lower level of taxes to relieve the burden a little bit. The ultimate idea is to when those homes are repaired and fixed they will come back to reassess.

Presentation by Larry Taylor of Volunteer Energy

Larry Taylor

Volunteer Energy

Good evening and thank you for giving me the opportunity to be here this evening. I had a chance to meet most of you a few minutes ago. We had met on zoom previously. I am with volunteer energy in Pickerington Ohio. I am an energy specialist with volunteer energy. Volunteer energy is a gas and electric supplier, we have been supplying gas for about 20 years and electric now for a little over three years. We have administered the gas aggregation program for the last three years here at the city. Volunteer energy and the city of Reynoldsburg have partnered to bring a guaranteed savings of 8% to the community. To date the gas aggregation program has provided the residents with a savings of about \$91,000.00 in civic grant money. I wanted to familiarize myself with you as I talk about the electric aggregation. I'm here tonight to discuss the electric aggregation and a partnership with volunteer energy in the city do you administer the Electric aggregation program. Shortly after the mayor took office I met with him and Director Dorman to discuss the electric aggregation program. The city had a consulting agreement with a company called AMPO. AMPO's responsibility was to administer the electric aggregation program. For that, they received a fee that would ultimately be collected by the electric supplier. I simply explained how this process worked and a volunteer energy were to administer the electric aggregation program then the city would not have to pay a consulting fee and that same amount of money would be donated back to the city of Reynoldsburg in the form of a civic grant. Based on the past electric use we are able to estimate that the city would receive a Civic grant in the amount of \$42,000. The mayor and Director doorman said the current aggregation program didn't expire until the end of 2021. So he said OK let's circle back up and talk about this in 2021, we met earlier in 2021 and again in July 2021. During these meetings I explain that the city would still receive a competitive price, that there would still be an opt out option for residents, there would be no fee or penalties for opting out of the program. Volunteer

energy would administer the program and work with AMPO and AEP to provide all pertinent information that is needed in a timely manner. The only difference would be the civic grant. What it boils down to is that the city could stay with AMPO and pay through the supplier for a fee of \$42,000 per year or the City could go with Volunteer energy, we have a good working relationship with the gas aggregation program and volunteer energy would be willing to donate that fee back to the city in the form of a civic grant. We believe this is a win-win for the city and the residents and at this time I would like to open it up for any questions you may have.

Councilmember Baker

Is there a deadline for residents to opt out or can they choose to do so at any time?

Mr. Taylor

They can opt out at any time they would like. Initially we send out a letter that Reynoldsburg is initiating an aggregation program and we give them the option to opt out at that time but if someone is in the program for let's say six months and choose to opt out at that time they can at no cost.

Councilmember Baker

How are you going to inform the residents about their options to opt out?

Mr. Taylor

Typically we would put out media post, social media post, local paper and also volunteer energy and I would be available to hold town meetings to let them know about the gas aggregation program and they would have the opportunity to ask the same questions.

Councilmember Baker

I think a town hall meeting would be beneficial for those who have concerns about a gas aggregation program. I understand the city voted for this a while ago. And a lot of senior citizens who could be concerned about this program are not on Facebook.

Mr. Taylor

We will do to town hall meetings. And it's a great opportunity for people who are not informed or miss in formed and they can come in and ask questions and we can get to the bottom of it for them.

Councilmember Pyakurel

There is a large population of people in Reynoldsburg who do not speak English, how do you plan to address that situation?

Mr. Taylor

That is a great question, I've never been asked that before. We can certainly address that with Council as a whole or you individually and we will be more than happy to make that happen.

Councilmember Pyakurel

If somebody has opted out of the program but then decide to come back in are they able to opt back into the aggregation program?

Mr. Taylor

If someone decides to opt out at any time and a few months later they decide they want back in there able to come back into the program at any time.

Councilmember Bryant

For the record can you explain why opting in instead of opting out is what we are dealing with?

Mr. Taylor

Typically with aggregation programs both gas and electric if you have an opt in verse an opt out there's very little activity and it's just not worth anybody's time.

**MINUTES REGULAR MEETING
REYNOLDSBURG CITY COUNCIL
September 27, 2021**

Councilmember Strickland

Typically how long are your contracts? How long are you asking to contract with the city?

Mr. Taylor

When I met with the mayor and Mr. Dorman and I introduced the idea of a 12 month agreement. Typically aggregation programs are 24 month. But a 12 month agreement would Decrease the chances of the price to compare to be lower than what we are able to offer the city. The longer the time goes on the better chance there might be a decrease in the rate therefore that could raise issues with a 24 month contract. Typically that does not happen. One way to reduce the chance of that happening is to introduce a 12 month contract.

President Jenkins

You talked about an estimated \$42,000.00 being returned to the City and I also heard you talking about a grant.

Mr. Taylor

Correct, it would be in the form of a civic grant that you guys receive and can use anyway you feel best suits the residents.

Councilmember Salvati

One of the issues I hear a lot from people about our current electric aggregation program and an issue I have had, the citizens that need to be on a budget plan. I have never had an issue with aggregation program and being on a budget program it's worked. But with the electric aggregation I've heard that it gets all messed up. One of the reasons I have heard that is because AEP is harder to work with then Columbia Gas, I don't know if that is what it is but have you heard any situations where there's been an issue being on the budget.

Councilmember Salvati

It could've been an excuse I just wanted to make sure that it wasn't an issue in any of your other electric programs.

Mr. Taylor

With the recommendations from the mayor and Mr. Dorman, I will be putting together a proposal that will come to counsel hopefully in the next few weeks and we will go from there. Thank you.

SkilkenGold Real Estate Development

I'm here tonight speaking about a proposed Sheetz at the north east corner of Brice and Main Street. Right now it's a vacant Walgreens. We know it's a very prominent corner with certain design objectives and intersection traffic safety concerns, which is why we wanted to come and talk to you first before diving into details and the formal development process. I have Eric Hemsley with me from Sheetz Real Estate and Eric Elizondo, he is the SVP of operations from SkilkenGold and we also have Kareem Amr who would be the project manager for this proposed development. Sheetz is working on many sites and projects in the City of Reynoldsburg as I am sure you have heard. Sheetz wants to make a positive investment in the community. With the projects we are talking about, we are looking at a \$30,000,000.00 investment in the community and generating about 120 new jobs. That investment in the community is real and here. We have heard and are communicating with staff that there are real safety concerns with this intersection.

One of the first pages in your packet is a design from EMH&T. We know that the City of Reynoldsburg has been looking at the realignment of that intersection. We hear you. If you go to the next page you will see a very rough sketch of what we call a test fit. A first drawing of the proposed site plan, nothing set in stone. What I want you to stay with us that we are taking the necessary consideration to donate to Reynoldsburg In order to make this realignment in traffic improvements work for the community. We are also willing to have conversations about contributing financially to the overall Realignment in design. Basically we are a willing partner. We want to make it work, we want the development to succeed, and we want to make it a safe area for everyone. Finally we know the site is not zoned properly for what we need to do. We know we need to go through the formal zoning process and meet the criteria that is outlines by the City. We are willing to meet us, we are willing to dress up the building, meet the height requirements, and really design a building that is appropriate for the City of Reynoldsburg. Tonight, I know we don't have much time but I wanted to have a bit of an open dialogue and conversation and hear from you with any comments or questions. We are here to be a contributing partner with the city of Reynoldsburg and make a significant investment. I am happy to recap anything or open it up to question or comment.

Councilmember Salvati

I did want to make a statement. I was able to be at the presentation you made at the planning commission so I've had considerably more time to know about this, I have no problem with your proposal or with Sheetz. I am Pittsburgh born and raise so I'm familiar with Sheetz for a long time. My concern is that if Council is going to be asked to change this to a CC District from the Innovation District. Looking at the zoning map it would be really odd, to have this one little parcel in a sea of innovation at Brice and Main. I don't know if that is what you would consider spot zoning but it sure seems like it to me. I'm one of seven so you can ignore me but what I would want is if we considered leaving retail convenience with gas out of the Brice and Main Innovation District. If we were going to go a direction to consider this, I would like to possibly consider the Brice and Main Innovation district rather than the CC zone in the middle of it. Going forward that is what I would like to see.

A MOTION TO APPROVE A RESOLUTION TO ADOPT THE FRANKLIN COUNTY 2018 NATURAL HAZARD MITIGATION PLAN

Mayor Begeny

This is a continuation of a process that began as early as 2016. Reynoldsburg and other municipalities in the central Ohio area identified targets in areas for flood mitigation, the plan was received and submitted. Now it's the Council's turn to act on it. If we are to proceed with other functions as far as flood mitigation this would allow us to participate and be eligible for future grants that could potentially pay for all of those things.

An Ordinance Authorizing the Mayor to Enter into a Contract to Purchase Real Property Located on East Main Street to be Owned by the City of Reynoldsburg for a Public Purpose, and Declaring an Emergency (First Reading 9/13/2021)

Mayor Begeny

This is just a continuation for the land that is more commonly known as the field across from the cemetery. We are working now on two different development agreement that I can let city attorney Shook get in the more detail on. We hope to have those deals ready to present to Council in October once we finish our process here.

Attorney Shook

I can get into more detail about 1 particular development that we have. We received a letter of intent for the four or 5 acres that are across from the cemetery on those two parcels. At this time the letter indicates the purchaser as the Daimler Group, they are a development organization, and they would purchase that property for up to \$190,000 an acre. That would put their purchase at \$950,000.00. Which is still less than half of the total amount of land that Council would be authorizing to purchase this evening. That gets us very near to breaking even just on that particular sale if it goes through. On the eastern portion we are still in the very preliminary stages. If that goes through I would expect a significant announcement in the next month or so.

An Ordinance Authorizing the Mayor to Enter into a Contract to Purchase Real Property Located at 7277 East Main Street to be Used by the City of Reynoldsburg, and Declaring an Emergency

Mayor Begeny

This is the Moyer Automotive Facility. The next item is for the property just south of that so it would be for two parcels. These two areas were part of the original three that were brought to you in Executive Session. It's just taken a long time due to an EPA concern on these particular properties. I am going to read a statement from the EPA on what we do from here.

1. After talking with the EPA, and their technicians, who wrote the study; it was found that the compound of Perchloroethylene (PCE) was present in the soil surrounding the main structure. This was concluded to be 2-3x the normal allotted value in this area. As alarming as it may sound, the EPA were not concerned. They found it interesting that this compound was found in this area, because the normal cause of PCE is a dry cleaning business. After discussing with them what the future holds for this site, and the surrounding area it was their recommendation to move forward with the demolition of the building, and have EMH&T conduct a quick soil sample thereafter.
2. They felt strongly that the PCE was using the concrete slab foundation as a natural conductor, and either was pulling it out of the ground, or the current building is leaching it to the slab, and the soil as a byproduct. They concluded that with the demolition of the building, they feel the problem will fix itself, and little remediation will need to be done afterwards. They felt that future mixed-use development on that site can continue, and they see no issues with the desired future use.
3. We will be asking for additional appropriations for the demolition, and the second simple soil test. Ryan Andrews from EMH&T will run point to conclude the results. The EPA concluded with saying that this was voluntary action, and a see and sample method.

Further EPA action was not required at this time. This would be the third piece of the old town with Happy Dragon and PNC bank, so this was the third piece. We spent a great amount of time discussing the impact on finances with auditor Cicak. With the flip of the land across from the cemetery in the inevitable sale of the Happy Dragon purchase, we felt we would be able to do this at this point in time.

Attorney Shook

You will notice in the agreement there is a provision that assigns the purchase to the Reynoldsburg improvement Association. This was done in consultation with our outside counsel on CIC matters. Then why is that with the environmental issues that were raised, it would be in the city's best interest if the city were not an owner in the chain of title in this particular property. So it includes a provision that the deed would be assigned to the Reynoldsburg improvement Association. The CIC will need to conduct a meeting to determine if they are going to accept that deed. So there are still some steps in the process to go here, thank you.

Councilmember Baker makes a motion to forward the Ordinance to Council for a first read. Second by Councilmember Pyakurel. Motion carries.

An Ordinance to Amend the Official Zoning Map for the City of Reynoldsburg for a Property Located at 8555 East Main Street from Innovation District (I) to Community Commercial District (CC)

Attorney Shook

This is in relation to an application submitted to rezone a parcel of land at the corner of Taylor in Main on the north east corner. Currently it's zoned as Innovation and District and what the applicant is looking to do is build a Sheetz. The current zoning does not allow for a permitted or conditional use so they are asking for community commercial. I would note concerns we were talking about earlier with spots opening and neighbors parcels. The parcels surrounding which would be the CVS and Kroger are all sound as community commercial. So it would not be a spot zoning concern.

President Jenkins

Can you explain again which corner this is?

Attorney Shook

The southeast. The one that same intersection as the trailer park and the open space there. Just to the west of the trailer park. The developer is looking to buy up a lot of land in that area including the trailer park, with plans for redevelopment.

Mayor Begeny

Sheetz Itself would be a small part in a much larger development, but that is what they are leading off with. We are just now in the preliminary discussion as to what would be in the surrounding areas.

Councilmember Lawson-Rowe

Are there three locations for Sheetz?

Mayor Begeny

Correct. And the third would be the one that has already been approved on the Broad Street side. I can't recall if we have gotten plans for that yet. This is at Councils discretion and we are offering the opportunity to ask questions. At this point we are

Attorney Shook

The process from here is Council would need to refer the matter back to planning commission to review the application and make a recommendation back to city Council. Kind of like what we would do with any other zoning code change. You're not being asked to vote or approve this tonight. I believe in my discussions with the other administration, I don't think they are taking any pro or con position on this.

Mayor Begeny

It's too early to tell, we are very curious about the surrounding facilities and what would be there in addition to this.

Councilmember Strickland

I think that is my concern. Having Sheetz come in on three other locations and losing out on other possibilities.

Councilmember Baker

I'm sure in due time a lot of answers will be offered up to these questions from administration.

Discussion of Residential Speeding Code

Councilmember Baker

I put this on the agenda to discuss how we can stop the speeding especially in the residential areas like Priestly, Rosehill and basically all over the city. I think it's a discussion that we should have and I don't want this to be a month to month, for your discussion, I think we should come up with something. It might not be perfect but at least it's something to try and stop the speeding that's going on in the city of Reynoldsburg. I wanted to open this up for any ideas. I will start this carousel which is increasing the fines for those who speed through residential neighborhoods. We have a lot of families with children in these neighborhoods and a lot of cars speeding in residential areas. I've always been told if you want somebody to do something then hit them in the pockets. I think we should increase the fine for speeding and how that happens it can be logistically talked about but it's just an idea I had and I didn't know if anyone else had any idea or wanted to put something out there.

Councilmember Bryant

I've been talking about speed tables for years but haven't gotten any traction with that.

Mayor Begeny

And the traffic in transportation committee that was established early last year actually met on this with one area of the community that has provided the most complaints of speeding and that would be Priestly from Waggoner Road to the County line in that area. One of the options I that the residents are very strenuous about are increasing the forces in that area which obviously is only able to do so much because once the officer leaves the area the normal concerns would continue. So the conversation is shifted with members in the community and looked at petitions and brought a number of things back for a installation of some sort of combination of speed tables and speed bumps in that area. The majority of them would prefer to have it in those particular areas. What we feel in the administration is that we need to do this kind of on a systematic basis. We started with a flashing stop sign as a first phase

Minutes Acceptance: Minutes of Sep 27, 2021 6:30 PM (Approval of Minutes)

**MINUTES REGULAR MEETING
REYNOLDSBURG CITY COUNCIL

and increase patrols is the second phase and after that is a plan that would be presented before counsel to add speed tables that would be installed where speeding is prevalent. That being said everyone knows this may or may not stop the speeding that goes on. This is the personal discretion of the individual drivers. They can be the drivers within the community that was mentioned at one point in time. There was a resident who called for another resident rolling through the stop sign and it one point it was so bad that they called the police and we had our motorized traffic unit out there and they did a great job for the days they were out there. We received a message from the individual thanking us and we need to protect the residence from anything bad happening. So that was great because it is relatively rare that we get it thank you messages. The next day I got a message from this individual that her husband accidentally rolled through a stop sign and got a ticket as well and she was not upset she was actually pleased at the irony of it all. But what it means is that these incidences whether they are going through a stop sign or speeding are in fact done by those who live in work in the area. This is a step process that we would go with a speed table. It is broken down and designed in specific areas. If we're able to see positive feedback may be a reduction in speeding overall then we would use this as our tester to take to other parts of the community that deal with this. We are also looking at future development to make sure that specifically Priestley is a unique thing since it is such a narrow road in the particular area there are very limited options as far as some of the more non-invasive ways to slow traffic down. We are going to make sure and some of those other developed areas that we allow for future potential in terms of options to slow the traffic down.

Councilmember Strickland

This is a question for Rosehill that bend, is there a way we can put flashing lights right before the bend for people to slow down?

Mayor Begeny

It's a possibility. I think the first thing we would do is work with our PD to put one of the blind monitors so we can have data to show the actual speed. But I have noticed and for those of you that I've had the opportunity to join the citizens police Academy

Minutes Acceptance: Minutes of Sep 27, 2021 6:30 PM (Approval of Minutes)

**MINUTES REGULAR MEETING

or those that will there's a big difference between the speed that people think cars are going in the actual speed that they are going. So the first thing we would have to do is gather the data for that and then we can figure out what is going on. Later in October we will have the opportunity to ask our engineers from EMH&T what's going on when it comes to potential issues for the civic park redesign that may ultimately have a secondary entrance onto Rose Hill. So we will keep that in mind as well. So if we do have a second entrance off of Rose Hill into Civic Park we want to keep that in mind. That is one area that has come to our attention as well. Brice Road north of Main Street is another area as well. Firstgate and I'm sure right now on Facebook we're getting every other road that people speed on.

Councilmember Strickland

How soon could we actually get that going so we could start collecting that data?

Mayor Begeny

I will get with the Chief and Deputy Chief after the meeting and then I will inform Council how quickly we can get that out there. I know there is a schedule that they do, which is typically complaint driven. So the area that it's in now we will finish out whatever the temporary run is and then the next available opportunity we will move there.

Councilmember Pyakurel

Thank you for bringing this, we were talking to a resident on Priestley Drive the other day. There was a gentleman going the speed limit driving and another gentleman who is going maybe 45 or 50 and the gentleman driving appropriately honked at the one speeding right by him. Those people need to be fined and stopped. I agree with this and I think we should move forward with this.

Mayor Begeny

One thing I did talk to the chief of police about is there is always a perception, I'm not saying it's true or not true, but there is a perception that there is someone of a buffer at the number of miles per hour. So if the speed limit is 25 there's a 5 mile or a

Minutes Acceptance: Minutes of Sep 27, 2021 6:30 PM (Approval of Minutes)

**MINUTES REGULAR MEETING
REYNOLDSBURG CITY COUNCIL

10 mile buffer, obviously I would never say that is the case however we did discuss what would happen at the idea of the strict enforcement of that. Part of the concern that I Express to the residents with stricter enforcement, is the impact it would make on them. The socioeconomics as well as the impact on the City Attorney's office when it's dealing with those kinds of things. A lot of the time the members of council expressed concern about the number of people in our court system, the opportunity of a suspended license and how this would play a role into it. That being said when people are going 50 mph that's not the issue it's some of the other ones out there the 50 mph winds are no question. And be prepared if we do increase or tighten up any buffer in that area I'm sure a number of residents will be more than happy to express their concern when they get those tickets in the process. Just throwing that out there for you.

Councilmember Bryant

If we are going to talk about raising penalties for speeding I think we also need to talk about people using the left turn lanes as passing lanes on Lancaster and Rose Hill and Taylor. On Rose Hill between Main and the high school especially.

Mayor Begeny

RPD has been informed of that with the return to school. They were on increased patrols you've seen a lot more officers in the speed zones of those areas however it's officer is not there in that moment in question they cannot do anything about it. I do know that state representative Rich Brown tried to advance some legislation to put cameras on buses. That way the cameras can actually identify those cars that go around the bus specifically but it's an enforcement issue and the rest is dealing with personal responsibility and the adults in the room teaching their kids the right way about that which is a major issue. RPD does a fabulous job. We have seen an increase in school zone speeding tickets. The common courtesy aspect is lacking in a number of ways and I'm not sure if we can legislate or monitor that. But it's definitely something we all need to do a better job at.

Councilmember Lawson-Rowe

And one of my past lives, I was in a community where they had neighborhood town halls into the mayors point. Many of those offenders of speeding and traffic violations are the members that live there in that neighborhood. I wonder if there is an opportunity for us to have small neighborhood town halls and educate and partner with our officers or a traffic patrol. Education is key and a lot of times we think it's someone who is not in our neighborhood but it really is sad to say it's those who live right there in the community.

Mayor Begeny

I promise this was not a set up question but thank you for giving me the opportunity to plot our first town hall. Which is actually on October 13 and Baldwin Road middle school. So that might be something we can add to the list of topics to discuss. This is a town hall in conjunction with Reynoldsburg Police Department, Reynoldsburg city schools and Reynoldsburg to address these issues and many others that face that particular community. We hope to start this town hall in cooperation with the school district and move it to other areas of Reynoldsburg to increase this all the way across. Thank you for the free plug.

Councilmember Baker

I think this was a very healthy discussion and those of you that know me once I get a ball moving I'm going to keep on pushing to the finish line. I'm hoping this is the start where we can at least try to alleviate a problem I'm sure not just here but other municipalities and cities. I look forward to seeing progress as well.

Attorney Shook

I know we had discussed this before about whether we need to take some legislative action or if there is some way to look at those penalties outside of legislation. Currently, speeding in a residential area doesn't receive any special treatment in our speeding enforcement as some communities have done. We have the flexibility to change those fee schedules on the bottom of the ticket that tell you how much you have to pay so you don't have to go to court. It's actually the Mayor's office that sets

Minutes Acceptance: Minutes of Sep 27, 2021 6:30 PM (Approval of Minutes)

**MINUTES REGULAR MEETING

that amount, now it's maxed out at the fine of \$150 and our court costs are \$95. The Mayor would have the flexibility to adjust the waiver amount in residential areas. Currently, it's \$120. We have the flexibility to move that up to 160 as we discussed before. So that the monetary penalties in those districts for speeding or more severe that they are in other areas.

Councilmember Bryant

Mr. Brusk brought up the issue of masks and I would like to have a quick conversation on that. I spend all day and every day in Columbus where I am required to wear a mask at work. It's a little weird coming back to Reynoldsburg seeing practically no one with a mask on. I don't like having to mandate anything just because it's something that gets people riled up but I agree with Mr. Brusk, this needs to be about science and not politics. We need to look at the numbers as they are increasing and putting more people at risk.

Councilmember Baker

I think it couldn't hurt to look into it because just today I had a coworker who I had to deliver materials to her office so she could work at home because her son has Covid and she has been exposed. It is a serious issue. In my house just last week there was a potential exposure, there were the symptoms there but thank God no one had it. It's something that we do need to take serious. I was really hoping it was going to get better but apparently we are trending in a direction that none of us wanted to see. I'm going to be honest I hate wearing masks. Especially walking up and down the stairs in the parking garage are going to the store and you forget and have to go back, it's annoying. I would rather deal with annoyance and be living then not dealing with it.

Councilmember Strickland

Thank you for bringing this up, I was going to bring it up at the end but thank you. I was sick for three weeks, and I thought I was going to die, with Covid. It is serious. It is something that this virus is taking people out. I just heard a grandmother on Saturday, her 17-year-old is in the ICU fighting for her life because she has Covid and she caught it in school. This is real and we cannot make this about politics. I do

wear my mask when I'm coming and going. I was in Kroger and had my mask on. I believe in the mask, but as Councilmember Bryant stated there may be some push back, but also as Mr. Brusk said we have to make some tough decisions.

Councilmember Bryant

I did have some conversations with a Councilmember from Gahanna where rather than pushing for a mandate they are bringing in an ordinance that would allow individual private businesses to make a decision for themselves whether they can mandate it on their premises. I don't know how that would work or if that would solve the goals in our community.

Attorney Shook

Businesses are already allowed to do that.

Councilmember Bryant

Ok, well then, that doesn't solve anything.

Councilmember Lawson-Rowe

I just wanted to share that our children are wearing masks in schools all day every day. I had an opportunity to visit one of our schools and our students are in the classroom and they keep their mask on and don't complain and the teachers are phenomenal. They may lower it in order to speak at the front of the room. I don't see why we cannot ask adults to do the same thing our children are doing. I asked my kids and my grandkids to be a masked, I would hope that we would all be adults.

President Jenkins

Thank you for bringing this forward, I have always been in favor of masks. I've always been in favor of mandating mask or encouraging our city to be all wearing mask. I know it's a tough decision but I've always been in favor in it and I don't have a vote on it unfortunately but I do think it's something we should consider.

An Ordinance to Authorize the Auditor to Establish a New Agency Fund Account

Auditor Cicak

This legislation is required for our new JEDD 7. It establishes a new fund to put the money in. It can go for three readings but it needs to pass as an emergency.

Councilmember Salvati makes a motion to forward the Ordinance to Council for a first reading. Second by Councilmember Baker. Motion carries.

An Ordinance to Transfer Funds for the Purchase of Real Properties at 7277 East Main Street and 1415 Water Street to be Used by the City of Reynoldsburg, and Declaring an Emergency

Auditor Cicak

This legislation is required to pay for the lien purchases tonight. It comes from the general fund to go to the capital improvement fund, hopefully we will see the city reimbursed by the end of the year for two out of the four.

Attorney Shook

This is for the automotive technician purchase in the parcel behind it. Again it will be assigned to the community improvement corporation, I would expect that at the first meeting in October, we would have an agreement to present between the CIC and the City. So that when the CIC is able to sell that property the proceeds are returned to the city. This is a two read emergency.

The Title Commitment shall show fee simple title to the Property in Seller free and clear of all liens and encumbrances except: (i) the standard exceptions for an owner's policy, unless one or more of such exceptions are waived by the Title Company, (ii) real estate taxes and assessments affecting the Property, and (iii) easements, conditions, restrictions, covenants, reservations, encumbrances, liens and other matters of record or affecting the Property. The Title Commitment shall be issued in favor of Buyer as the proposed insured, in the aggregated dollar amount of the Purchase Price for the Property.

1. In the event Buyer should timely notify Seller of any such Buyer's Objection, Seller shall have ten (10) business days following receipt of any such notice from Buyer to remedy said Buyer's Objection. The parties agree in good faith to attempt to resolve any and all of Buyer's Objections provided that such are reasonable. Provided, however, if the Buyer's Objection is one which can be removed by the payment of money, to secure the release of a lien or monetary encumbrance not in excess of the Purchase Price (such as a tax lien certificate of judgment or mortgage), Seller shall be required to and hereby agrees to satisfy any such encumbrance from the net proceeds due and payable to Seller at the Closing in order to remove the lien or encumbrance from title to the Property
 2. Permitted Exceptions. All of the matters set forth on the Survey and Title Commitment, if not constituting a Buyer's Objection, shall be a permitted exception to title to the Property (collectively, the "Permitted Exceptions"). - D. Title Commitment, Title Policy and Survey Premium and Fees. At Closing and based on the Purchase Price, Seller also shall pay or credit on the Purchase Price all other unpaid real estate taxes and assessments that are a lien for years prior to Closing and a portion of such taxes based on a 365-day year and, if undetermined, on most recent available tax rate and valuation, giving effect to applicable exemptions, recently voted millage, change in valuation, etc., whether or not certified. The tax proration determined at Closing shall be final and neither Party shall have the right to contest said amount unless predicated on fraud or intentional misrepresentation.

Provided, however, if the Buyer's Objection is one which can be removed by the payment of money, to secure the release of a lien or monetary encumbrance not in excess of the Purchase Price (such as a tax lien certificate of judgment or mortgage), Seller shall be required to and hereby agrees to satisfy any such encumbrance from the net proceeds due and payable to Seller at the Closing in order to remove the lien or encumbrance from title to the Property
 2. Permitted Exceptions. "Permitted Exceptions" shall also include, at Seller's election, the Deed Restrictions (as hereinafter defined).

WHEREAS, this Council, pursuant to ORC Sections 5709.40, 5709.42 and 5709.43 (collectively, the “TIF Act”), is authorized to declare improvements to real property to be a public purpose, exempt those improvements from real property taxation, and require owners of the real property to make service payments in lieu of taxes in an amount equal to such exempted taxes; and

WHEREAS, to facilitate the development of the Project and pay the associated costs of the necessary public infrastructure improvements from service payments in lieu of taxes, this Council has determined to create the Summit Road Incentive District #1A, the Summit Road Incentive District #1B, the Summit Road Incentive District #2, the Summit Road Incentive District #3, the Summit Road Incentive District #4A and the Summit Road Incentive District #4B (each an “Incentive District” and collectively the “Incentive Districts”) pursuant to the TIF Act, the boundaries of which shall be coextensive with the boundaries of, and will include, the parcels of real property within each Incentive District specifically identified and depicted in Exhibit A attached hereto (as currently or subsequently configured, the “Parcels”, with each of those parcels referred to herein individually as a “Parcel”); and

NOW, THEREFORE, BE IT ORDAINED BY THE COUNCIL OF THE CITY OF REYNOLDSBURG, FRANKLIN, LICKING, AND FAIRFIELD COUNTIES, OHIO:

SECTION 1. Incentive District Findings and Determinations; Creation of Incentive Districts. This Council hereby: (i) adopts the Economic Development Plan for the Incentive Districts now on file with the Clerk of the City Council, (ii) accepts and adopts the City Engineer’s certification to this Council and the City Engineer’s findings set forth therein (a) that the public infrastructure serving the Incentive Districts is inadequate to meet the development needs of the Incentive Districts as evidenced by the Economic Development Plan and (b) that each Incentive District is less than 300 acres in size and enclosed by a contiguous boundary, (iii) finds and determines that the Project will place additional demand on the Public Infrastructure Improvements, including, without limitation, Summit Road, (iv) finds and determines that the City sent written notice of the public hearing regarding this ordinance by first class mail to each owner of real property within each proposed Incentive District at least 30 days prior to such hearing, which notice included a map of the proposed Incentive District as well as the overlay area required by ORC Section 5709.40(C)(2), (v) finds and determines that this Council has not received a request from the owner of any real property within any proposed Incentive District to exclude that owner’s property from the Incentive District and (vi) finds and determines that

notice of this ordinance has been delivered to the Boards of Education of Southwest Licking Schools and the Career & Technology Education Centers of Licking County in accordance with and within the time periods prescribed in ORC Sections 5709.40 and 5709.83. This Council further finds that the sum of the taxable value of real property in the Incentive Districts for tax year 2020 and the taxable value of all real property in the City that would have been taxable in tax year 2020 were it not for the fact that the property was in an existing incentive district and therefore exempt from taxation, does not exceed twenty-five percent of the taxable value of real property within the City for tax year 2020. Pursuant to the TIF Act, this Council creates the Incentive Districts, the boundaries of which are coextensive with the boundaries of, and include, the Parcels specifically identified and depicted in Exhibit A attached hereto.

SECTION 2. Public Infrastructure Improvements. This Council designates the following public infrastructure improvements, together with any public infrastructure improvements hereafter designated by ordinance, as public infrastructure improvements made, to be made or in the process of being made by the City that benefit or serve, or that once made will benefit or serve, the Parcels in each Incentive District (the “Public Infrastructure Improvements”): roadway improvements (including, without limitation, improvements to Summit Road), water system improvements, sanitary sewer improvements, storm drainage improvements, pedestrian sidewalks and bike paths, street lights, gas facilities, electrical facilities, parks and recreation facilities located within one mile of any Incentive District, and all appurtenances thereto. The costs of the improvements include but are not limited to, those costs listed in ORC Section 133.15(B).

SECTION 3. Life of Incentive Districts; Authorization of Tax Exemption. The life of each Incentive District commences with the first tax year in which at least \$1,000,000 of building Improvements would first appear on the tax list and duplicate of real and public utility property for Parcels within an individual Incentive District were it not for the exemption granted in this ordinance and ends on the earlier of (a) 10 years after such commencement or (b) the date on which the City can no longer require service payments in lieu of taxes, all in accordance with the requirements of the TIF Act (the “Incentive District Life”).

Pursuant to and in accordance with the provisions of ORC Section 5709.40(C), this Council hereby declares that the increase in assessed value of each Parcel subsequent to the effective date of this ordinance (which increase in assessed value is hereinafter referred to as the “Improvement,” as defined in ORC Section 5709.40(A)) is a public purpose, with 75% of such

Improvement to each Parcel exempt from taxation for the Incentive District Life for the applicable Incentive District.

SECTION 4. Service Payments and Property Tax Rollback Payments. Pursuant to ORC Section 5709.42, the owner of each Parcel is hereby required to make annual service payments in lieu of taxes with respect to the Improvement to that Parcel to the applicable county treasurer (the "County Treasurer") on or before the final dates for payment of real property taxes. Each service payment in lieu of taxes, including any penalties and interest at the then current rate established for real property taxes (collectively, the "Service Payments"), will be charged and collected in the same manner and in the same amount as the real property taxes that would have been charged and payable against the Improvement if it were not exempt from taxation pursuant to Section 3 of this ordinance. The Service Payments, and any other payments with respect to each Improvement that are received by the County Treasurer in connection with the reduction required by ORC Sections 319.302, 321.24, 323.152 and 323.156, as the same may be amended from time to time, or any successor provisions thereto as the same may be amended from time to time (the "Property Tax Rollback Payments"), will be deposited and distributed in accordance with Section 6 of this ordinance.

SECTION 5. TIF Fund. This Council hereby establishes the Summit Incentive District Municipal Public Improvement Tax Increment Equivalent Fund (the "TIF Fund"). The TIF Fund shall be maintained in the custody of the City and shall receive all distributions to be made to the City pursuant to Section 6 of this ordinance. Those Service Payments and Property Tax Rollback Payments received by the City with respect to the Improvement of each Parcel and so deposited pursuant to the TIF Act shall be used solely for the purposes authorized in the TIF Act and this ordinance (as it may be amended or supplemented). The TIF Fund shall remain in existence so long as such Service Payments and Property Tax Rollback Payments are collected and used for the aforesaid purposes, after which time the TIF Fund shall be dissolved and any incidental surplus funds remaining therein transferred to the City's General Fund, all in accordance with the TIF Act.

SECTION 6. Distribution of Funds. Pursuant to the TIF Act, during the Incentive District Life for each Incentive District, the County Treasurer is requested to distribute all Service Payments and Property Tax Rollback Payments to the City, for further deposit into the TIF Fund. The City shall use all such amounts deposited into the TIF Fund for payment of costs of the Public Infrastructure Improvements, including, without limitation, debt charges on any notes or bonds

issued to pay or reimburse finance costs or costs of those Public Infrastructure Improvements. Such distributions required under this Section are requested to be made at the same time and in the same manner as real property tax distributions.

SECTION 7. Further Authorizations. This Council hereby authorizes and directs the Mayor, the City Attorney, the City Auditor, and the Development Director, or other appropriate officers of the City to deliver a copy of this ordinance to the Ohio Development Service Agency and to make such arrangements as are necessary and proper for collection of the Service Payments. This Council further authorizes the Mayor, the City Attorney, the City Auditor and the Director of Development, or other appropriate officers of the City to prepare and sign all agreements and instruments and to take any other actions as may be appropriate to implement this ordinance.

SECTION 8. Open Meetings. This Council finds and determines that all formal actions of this Council and any of its committees concerning and relating to the passage of this ordinance were taken in an open meeting of this Council or any of its committees, and that all deliberations of this Council and any of its committees that resulted in those formal actions were in meetings open to the public, all in compliance with the law including ORC Section 121.22.

CITY OF REYNOLDSBURG, OHIO
ECONOMIC DEVELOPMENT PLAN
Summit ROAD RESIDENTIAL INCENTIVE DISTRICTS

October 8, 2021

Attachment: Summit Road TIF Economic Development Plan (Summit Road TIF)

The Plan

The purpose of this Economic Development Plan (this “Plan”) is to satisfy the requirement of Section 5709.40(A)(5)(f) of the Ohio Revised Code, which requires that an economic development plan evidence that the public infrastructure serving proposed residential tax increment financing incentive districts is inadequate to meet the development needs of the districts. This Plan has been developed to continue the efficient and effective development of the City of Reynoldsburg, Ohio (the “City”).

Proposed Development

This Plan relates to a 239 lot residential development with an additional 80 townhomes on Summit Road in the City on approximately 137 acres.

The property, referred to herein as the “Summit Road Incentive Districts” or the “Property” is currently undeveloped – there are no buildings or structures on the Property. Creating a new, single family and townhome residential development will help increase property values in the area and increase housing options in the City.

The current development plan for the Property is contained in Attachment A.

Proposed Incentive District

The City is considering the creation of residential Tax Increment Financing (TIF) Incentive Districts (the “Incentive Districts”) encompassing the proposed residential development. The Incentive Districts will help to: (1) use quality architecture and design; (2) permit the development of high quality, single-unit housing; (3) enhance the City’s roadway system by providing for public infrastructure including roads, water, sewer, and storm drainage improvements, as well as sidewalks and landscaped open spaces; (4) create a neighborhood that will continue to grow over time; and (5) increase the City’s collection of income taxes and, over time, real property taxes for the City and other taxing subdivisions.

Public Infrastructure Improvements

Payments in lieu of taxes collected from the proposed Incentive Districts will fund public infrastructure improvements necessary to support the residential development, including, without limitation, the following improvements: roadway improvements (including, without limitation, improvements to Summit Road), water system improvements, sanitary sewer improvements, storm drainage improvements, pedestrian sidewalks and bike paths, street lights, gas facilities, electrical facilities, and all appurtenances thereto.

The public infrastructure improvements, especially to Summit Road, will help solve existing infrastructure needs in the City and improve the capacity of infrastructure to handle the increased demand placed on it by the development of the Property, all of which will help to attract new families to the City, increase property values and support the increase of needed housing stock. The City will benefit as a whole from the creation of a new neighborhood of 239 single family lots, townhomes, and construction of the Public Infrastructure Improvements.

Analysis and Assessment

The proposed residential development described in this Plan will help the City to enhance the safety and functionality of the community's roadway system as well as play a vital role in the growth and preservation of the community through planned development.

The proposed residential development will create an urgent need for infrastructure upgrades in this area of the City. The proposed Incentive Districts will assist in financing public infrastructure improvements vital to the growth and development of the Property but will also aid in attracting new families, a vital factor to the overall development of the City.

This project will allow the City to upgrade its roadway system. The proposed residential development will provide desired housing for population growth and a strengthened tax base for the City.

Conclusion

Residential development has been an important catalyst to the City's economic development success, and the Property will serve as a catalyst for success in the economic development of the City. The residential development will provide the desired housing for the growing population, while the public infrastructure improvements will support the residential development, and provide for new economic development in the City. The proposed Incentive Districts are located in an area identified by the City for growth and development. This project will provide critical family housing and necessary supporting infrastructure as the City's population and commercial activity increases.

CERTIFICATE OF CITY ENGINEER
PURSUANT TO OHIO REVISED CODE SECTION 5709.40(A)(5)(f)

The developer of the Incentive Districts shown on the attached maps intends to develop a residential subdivision with approximately 354 single-family homes within the City in order to increase available housing options within the City. Each of the Incentive Districts shown on the attached maps are less than 300 acres in size and have a continuous boundary. Pursuant to Ohio Revised Code Section 5709.40(A)(5)(f), I hereby certify that the public infrastructure serving the Incentive Districts shown on the attached maps is inadequate to meet the development needs of the districts as evidenced by the development plans for the districts.

SECTION 3. This Ordinance is hereby adopted by Council and shall be in effect thirty days following the signature by the Mayor.

Minority and Women Owned Business (MWOB) Grant

Minority-Women Owned Business Grant (MWOB) is designed to assist new business or expanding businesses within Reynoldsburg. The hope is to diversify, and improve our commercial offerings for the betterment of Reynoldsburg as a whole. The program was created in 2021 in the spirit, and intent of the lifting our minority owned, or female led businesses.

Program Description: Grant money is provided as a reimbursement and matched at \$.50 per \$1.00 of private investment up to a maximum of \$10,000 for eligible businesses. The total reimbursement amount will be based on submitted quote(s) contained within and set as part of the approved grant application.

Eligible Geography: All Commercial Business areas, as outlined in the Reynoldsburg Zoning Code.

Eligible Participants: Owners of for-profit businesses, non-profit or not-for-profit activities within the City may apply for an MWOB grant. Ineligible businesses include national chains, check cashing, sexually oriented businesses, governmental or quasi-governmental agencies and other businesses determined by the City to be contrary to the goals and objectives of community plans. Eligibility of non-profit, not-for-profit organizations shall be determined by proof of 501(c) status. Portions of buildings occupied by ineligible businesses may make the building ineligible for program funds. Eligibility of participants is at the sole discretion of the City.

Applicants requesting funding through the program must be current in their real estate property taxes and must be in good standing with all local, regional, state and federal taxing authorities. All properties participating in the program shall be in compliance with all applicable zoning, building and property maintenance standards.

Eligible Projects: Eligible projects are generally categorized into three types based on the nature of the proposed improvements. The following categories list examples of eligible improvements but do not represent an all-inclusive list. The Development Department is responsible for determining the eligibility of proposed improvements and said eligibility will remain at the sole discretion of the City. The City retains the right to approve an entire request, to approve portions of a request, suggest and/or ask for changes/additions to a request before approving or to deny any request or portion thereof. Building permit fees and professional design fees may be eligible for funding if associated with a project listed in the categories below.

1. Greenfield Development:
 - New construction for a new business.
2. Redevelopment/Expansion:
 - Redevelopment, Renovations, or expansion of an existing structure within the City.
3. Infill Development:
 - New Construction within a defined area of development within the City boundaries.

Funding: Project funds are provided as a reimbursement and matched for qualifying projects at a rate of \$0.50 per \$1.00. The maximum award per business shall not exceed \$10,000. This is a one-time grant opportunity, and once awarded, may not be eligible for re-application. The City determines the total reimbursement award based on the submitted quote(s) contained within the approved grant eligibility application. Costs exceeding the originally estimated amount may not be eligible for reimbursement.

Dispersal of Funds: Dispersed funds are to reimburse applicants for incurred expenses associated with approved project costs. Funds may be dispersed up to a maximum of two times during the duration of an approved project. Reimbursement requests will be processed upon the submission of proof of payment, photographs, inspection results and other needed documentation (as determined by staff) to verify the completion of the improvement.

Grant recipients are required to maintain records of expended funds and are to provide copies of all paid final invoices, paid receipts, inspection results and additional documentation demonstrating proper use of grant funds. Recipients not able to provide the necessary documentation/records will not be issued grant reimbursement funds.

This grant may be treated as income subject to Federal Income Tax. The City of Reynoldsburg is not liable for any tax implications resulting from the extension of this grant through the Minority-Women Owned Business Grant. See your tax advisor for clarification. The distribution of funds will be made in accordance with the guidelines stipulated by the administration of the City of Reynoldsburg.

Conflict of Interest: No official, employee or agent of the City shall have any personal interest, either direct or indirect, in the MWOB program, nor shall any such official, employee or agent participate in any decision relating to the MWOB program which affects his personal interests or the interests of any corporation, partnership or association in which he is, either directly or indirectly, interested. Additionally, work completed by applicants and/or property owners that hold ownership in any firm performing that work, or other instances in which the Development Department determines a conflict of interest is or may be present, shall be ineligible for MWOB funding.

Project Monitoring: Grant recipients must agree to allow any duly authorized representatives of the City of Reynoldsburg, at reasonable times and with twenty-four (24) hours prior notice, to have access to any portion of the project in which the City is involved and the period of such right to this access shall be until the City closes out the project.

Submittal requirements are set forth on the application form. Information the applicant provides will be used as the basis for evaluating the project. Applications will not be considered complete and eligible for participation in the program unless all items on the application are answered and all required attachments are included.

The Reimbursement Application determines the amount of possible reimbursement based on payments {i.e. paid invoices, copies of checks, credit card statements, etc.} and photos of the completed projects. Applications will not be considered complete and eligible for reimbursement unless all items on the application are answered and all required attachments are included.

MASTER AGREEMENT

TO PROVIDE ELECTRIC GENERATION SUPPLY AND RELATED SERVICES

BY AND BETWEEN

CITY OF REYNOLDSBURG

AND

VOLUNTEER ENERGY SERVICES, INC.

THIS AGREEMENT (“Agreement”) is made this ____ day of November 2021, by and between the **CITY OF REYNOLDSBURG** (the “Municipality”) and **VOLUNTEER ENERGY SERVICES, INC.** (“VE”), acting by and through properly authorized officials (hereinafter the “Municipality” and VE may from time to time be referred to as a “Party” and together, as the “Parties”).

WHEREAS

1. On November 6, 2001, the Municipality approved an ordinance to establish an “opt-out” electric aggregation program (the “Electric Aggregation Program” or the “Program”) pursuant to Ohio Revised Code (“ORC”) Section 4928.20, for the residents, businesses, and other electric consumers eligible to participate in the aggregation program (the “Program Participants”), and for that purpose, to take greater control over the electric purchasing decisions for the Municipality and its qualifying residents, with the desire to take advantage of the collective purchasing power of the Municipality for the benefit of the Program Participants.
2. On November 20, 2020 the Municipality was most recently re-certified by the Public Utilities Commission of Ohio (“PUCO”) as a governmental aggregator pursuant to Chapter 4901:1-24, Ohio Administrative Code (“OAC”) under Certificate #10-306E.
3. The Program will include members of the Program Participants who are currently supplied by American Electric Power (“AEP”), the local electric distribution utility (“Utility”).
4. The Municipality desires to select and use VE, during the term of this Agreement, as the exclusive provider of retail electric supply to the members of the Electric Aggregation Program at the pricing mutually agreed to by VE and the Municipality pursuant to the terms set forth in Section 2 of this Agreement.
5. The “Program Participants” shall consist of all retail electric loads, except mercantile customers, that are located within the Municipality and for which there is a choice of supplier of that service, and who are otherwise eligible to participate in the governmental aggregation program.

NOW, THEREFORE, in consideration of the mutual promises, covenants, conditions, and terms to be kept and performed and the aforementioned recitals, which are incorporated herein by reference, the Parties agree as follows:

SECTION 1 GENERAL PROVISIONS

1.1 Electric Governmental Aggregation Program

Municipality shall take all actions necessary to maintain its certification as a governmental aggregator with the PUCO at all times through the term of this Agreement and any extension(s) hereof. Municipality shall have no financial responsibility whatsoever with respect to the Customers' obligations under this Agreement, and Municipality does not assume the credit risk for any nonpayment on behalf of any Customer (as defined below) in its Electric Aggregation Program.

1.2 Volunteer Energy Services, Inc.

VE is duly certified by the PUCO as a competitive retail electric service provider and, as such, is authorized to provide such services to serve the Municipality's residential and small commercial customers who do not opt out of the Program.

1.3 Customers

The end users in the Municipality's Electric Aggregation Program will be the residential and small commercial customers within the Municipality's political boundaries that do not opt out of the Program ("Customers") and who are otherwise eligible to participate. On behalf of the Customers, the Municipality reserves the right to approve the supplier's terms and conditions for the supplier's contracts with the Customers.

1.4 Utility

For the purposes of this Agreement, American Electric Power (AEP) is the electric distribution utility and shall provide electric distribution services for all electricity supplied under this Agreement.

SECTION 2 SCOPE OF WORK

The Municipality shall use VE as the exclusive provider of retail electric supply to the members of the Electric Aggregation Program at the pricing mutually agreed to by VE and the Municipality pursuant to the terms set forth herein. The Parties hereby agree to undertake, perform and complete the services and/or actions described below:

2.1 VE and the Municipality hereby agree that the rate Customers will pay for electric generation service provided by VE under the Electric Aggregation Program shall be as set forth in Attachment A hereto ("Billing Rates") and shall be subject to Attachment B ("Terms and Conditions").

2.2 VE will be responsible for the costs of obtaining the eligible customer list from the Utility and/or from any other resource it deems useful in creation of an accurate list. The Municipality will share its resources to help mitigate the cost of assembling and verifying this list and will request the eligible customer list from the Utility. It will be the responsibility of VE to approve the list to be used. VE shall perform, and the Municipality will assist, to the best of their abilities, in the necessary list cleansing to ensure that only those Customers who are eligible to participate are included on the list. VE and the Municipality acknowledge that the list acquired from the Utility is represented by the Utility to be a list properly cleansed to include only those Customers that are eligible for the Government Aggregation, as detailed in ORC Section 4928.20. To the extent the Utility fails to provide such a list, the Parties hereto expressly waive any claim against each other resulting from such failure by the Utility.

2.3 Upon notification and request to VE by a Customer who was eligible at the time of the initial opt-out notification and who remains eligible in accordance with ORC Sections 4928.20 and 4928.21(C), and OAC Rule 4901:1-21-17(E), VE shall enroll any such Customer wishing to join the Program. If an ineligible customer receives an opt-out notice and is enrolled in the Program, upon knowledge of or notice to VE, VE shall take immediate steps to return that customer to the Utility's standard service. VE will also be responsible for reimbursing any switching fee and negative differential charges resulting from the improper switch, if notified by a customer with a legitimate grievance.

2.4 VE shall print and mail opt-out notice packets to Customers that appear on the cleansed list. The packet shall contain an opt-out notice scripted by the Municipality, a terms and conditions page outlining Customer contract provisions scripted by VE and approved by the Municipality and may also include other information as agreed upon by the Municipality and VE. VE shall bear the costs associated with preparing, printing, and mailing the opt-out notice packets.

2.5 VE shall receive and organize the opt-out responses and prepare a final listing of those Customers to be enrolled in the program. VE will also handle the information sharing/verification process with the Utility for the transfer of accounts.

2.6 VE will utilize its customer call center resources to handle customer calls and concerns about the Program in a timely manner and provide information about the Program to Customers. Consistent with the PUCO rules, VE shall maintain a toll-free telephone number that will be provided in all written correspondence with Customers, as well as the VE website that can be used by Customers to obtain answers to frequently asked questions. VE understands that the Municipality is not equipped to handle large volumes of customer calls and will be dependent on VE for this function. The Municipality will remain available to answer questions regarding customer inquiries as needed by VE.

2.7 Consistent with ORC Section 4928.20(D), once timing is finalized between the Municipality and VE, VE will conduct an initial opt-out opportunity (the "Initial Opt-out"). VE will provide the services set forth in Sections 2.2 through this 2.7 with respect to a subsequent opt-out ("Interim Opt-out,") as it did for the Initial Opt-out. The purpose of the Interim Opt-outs is to provide an opportunity for newly-eligible Customers (by way of example only and not by way of limitation, a resident new to the

Municipality since the time of the list compilation for the Initial Opt-out) to take advantage of the Program. All Interim Opt-outs will be conducted in the same manner as the Initial Opt-Out, except that any price notifications may be provided in an expedited fashion, as long as a full opt-out notice has been provided within the term of this Agreement.

2.8 Notwithstanding anything to the contrary herein, VE agrees that, upon notification by any former Customer of the Program Participants and once provided with appropriate documentation, VE shall re-enroll any Customer who is in the Program and who moves to a new location within the Municipality and within the Utility's service territory. This can be accomplished as an opt-in enrollment. Appropriate documentation shall include a signed agreement, telephone verification of enrollment, or internet enrollment into the Program. The price, terms, and conditions, once re-enrolled, shall continue for the remainder of the Customer's initial term at the Customer's prior address, although in no event shall the term exceed the term of this Agreement. In addition, VE shall permit any new resident of the Municipality, who is within the Utility's service territory and who moves into any facility existing at the time of execution of this Agreement, to opt into the Program at the then current terms and conditions for the Program, for the remaining term of the Program as specified in this Agreement. Residents of newly constructed facilities, if eligible, will be permitted to enroll in the Program during Interim Opt-out notifications and may, in VE's sole discretion, be permitted to enroll in the Program as opt-in Customers, from time to time.

2.9 If applicable, any person enrolled in the Program shall have the opportunity to opt out of the Program every three (3) years, without paying a switching fee.

2.10 Any person who opts out of the Program either before the commencement of the Program, pursuant to the stated procedure, or later shall default to the standard service provided under ORC Section 4928.14 or 4928.35(D) until the person chooses an alternative supplier.

2.11 If the Utility charges a switching fee for all Customers choosing a new supplier under the Choice Program, VE agrees to pay this fee.

2.12 VE shall use commercially reasonable efforts (consistent with current VE operational standards and industry practice) to not knowingly and intentionally actively solicit residents or small businesses who qualify for participation in, and have not otherwise opted out or become or been made ineligible for, the Program (the "Program Audience") for service or rates outside the Program; provided, however, that the Parties acknowledge and agree that (i) the foregoing shall exclude solicitations by websites, generally available print or electronic media, general postings, or promotions or advertisements to the general public (including by print, newspaper or electronic postings) and all other passive solicitations; (ii) VE shall at no time be expected or required to monitor, restrict, limit or modify in any way its current operational practices in effect as of the Effective Date with respect to any sales channels or methods other than those that would directly, knowingly, and intentionally engage in active solicitations of the Program Audience (which shall not include any of the types of solicitations in clause (i)); and (iii) the fact alone that a member of the Program Audience may enroll or otherwise contract for service or rates

outside the Program through other sales means, such as by website or in response to general public promotions or other broker or referral channels, shall not be sufficient to constitute a breach of VE's obligations under this paragraph.

2.13 If a Customer of the Program Audience is improperly removed from the Program as set forth in Section 2.12 above and switched to another price or electric product offered by VE, upon knowledge of or notice to VE of the improper switch, VE shall take immediate steps to re-enroll the Customer under the then-current price, terms, and conditions of the Program. VE will be responsible to reimburse any switching fee and negative differential charges resulting from the improper switch.

2.14 VE's arrangements regarding electric supply shall comply with the Choice Program. VE will supply and manage deliveries to meet the full requirements of the Program Participant's electric supply requirements. Pricing shall not include Utility charges, fees, or expenses, other than as set forth in Section 2.11 hereof.

2.15 If the PUCO requires information or documents regarding the Aggregation, VE agrees to assist in compiling such information in the possession and control of VE.

SECTION 3 TIME OF PERFORMANCE AND TERM OF CONTRACT

3.1 This Agreement and VE's obligations under this Agreement shall commence on the **March 2022 meter read date** (the "Effective Date") and shall terminate on the later of the _____ **meter read date** or the date of commencement of another agreement related to aggregation Administrative Services by and between the Municipality and another such administrator ("Initial Term"), unless the Agreement is extended for an additional term(s) by mutual written agreement of the Municipality and VE.

3.2 The Municipality shall have the right to begin negotiations with VE and other electric suppliers during the term of this Agreement in order to ensure a seamless transition and continuation of the Program. If the Municipality chooses a different supplier upon the termination of this Agreement, VE shall cooperate with the Municipality and the new supplier in a timely manner in order to ensure a seamless transition to the new supplier. This would include providing a list of Customers who, according to VE's records, are participating in the Program at the time such request is made.

3.3 Should this Agreement terminate at the end of the Initial Term and a new supplier is not chosen, and if the Municipality and VE have not entered into any written modification, amendment, or renewal of this Agreement, VE shall take all actions reasonably necessary to return any Program Customers to the Utility upon expiration of the Program term.

SECTION 4 DELIVERIES

4.1 On and after the Effective Date and throughout the term of this Agreement, VE shall provide firm, full requirements electric supply to the Utility's distribution system in accordance with the Utility's delivery guidelines.

SECTION 5 BILLING AND PAYMENT

5.1 VE shall delegate the billing obligations to the Utility, such that Customers will receive an invoice for the Utility's charges and VE's charges on the same monthly bill. Payment will be due according to the Utility's billing schedule. Customer will make payment to the Utility. As an option, VE will offer budget billing to residential Customers in good standing. The budget billing amount is based on a projection of the Participating Customer's energy usage for the remaining term of the Program calculated using twelve (12) months historical usage, where available, plus an adder determined by VE to minimize future true-up amounts. If Customer fails to make any payments under this Agreement or fails to meet any agreed-upon payment arrangements, VE may terminate this agreement by giving Customer written notice of at least fourteen (14) calendar days. Customer's failure to pay the Utility's charges may result in the account(s) being disconnected in accordance with the Utility's tariff. If an account is switched back to the Utility for service, it may not be served under the same rates, terms and conditions that apply to other customers served by the Utility.

SECTION 6 NON-PERFORMANCE/TERMINATION

6.1 If VE fails to meet its obligations to deliver electric supply under this Agreement and its failure is not excused by any provision under this Agreement, then VE shall reimburse the Customers for any difference between VE's price and the price that the Customers pay for any replacement electric supplies plus reasonable costs to procure replacement electric supplies, as necessary to meet the Customers' needs due to VE's failure to perform.

6.2 A Party may terminate this Agreement prior to its natural expiration for: (i) a material breach of any of the terms contained herein by the other Party hereto which has not been cured within fifteen (15) days after written notice by the non-defaulting Party or such other cure period set forth in this Agreement, or (ii) in accordance with the following contingencies:

A. **Illegality.** Due to the adoption of or change in any applicable law or any interpretation of any applicable law by any judicial or governmental authority, it becomes unlawful for either Party or both Parties to perform any obligation under this Agreement or its Attachments.

B. **Adverse Government Action.** A regulatory, legislative or judicial body having jurisdiction over this Agreement (A) requires a material change to the terms of this Agreement that materially and adversely affects a Party or (B) takes action that adversely and materially impacts a Party's ability to perform or otherwise provide the services herein, or requires a delay in the performance of this Agreement that either Party determines to be unreasonable or (C) orders a change or modification that affects the Program such that either Party's obligations hereunder are materially changed, and the change is not deemed a Force Majeure event.

C. **Failure of the Municipality to maintain its status as a PUCO-certified Governmental Aggregator.**

D. Failure of VE to maintain its status as a PUCO-certified competitive retail electric service provider.

6.4 Regulatory Event – Changes to laws, regulations, rules, decisions, entries, findings, or orders governing the generation, transmission, or sale of electricity may be made by different entities, including state agencies and regulatory bodies such as the Public Utilities Commission of Ohio (PUCO), federal agencies and regulatory bodies such as the Federal Energy Regulatory Commission (FERC), and Regional Transmission Organizations (RTO) that operate multi-state regional electric transmission systems such as PJM Interconnection LLC (PJM), the RTO that operates the regional electric transmission system in a multi-state region that includes Ohio. Such changes may include, without limitation, new, revised, altered, or amended laws, regulations, rules, decisions, entries, findings, or orders relating to (i) the generation of electricity, (ii) the availability and reliability of electricity supply resources (including, without limitation, capacity), (iii) the reliability of the electricity grid, (iv) the transmission or delivery of electricity, and (v) the sale or marketing of wholesale and retail electricity (collectively, Regulatory Events).

VE has no control over Regulatory Events. If any Regulatory Event materially increases VE's costs to perform under this Agreement, VE may promptly notify the Municipality that such a Regulatory Event has occurred and provide written notice to the Municipality of proposed new contract terms to Customer, including, without limitation, an increased price for the electricity delivered by VE under this Agreement. If VE proposes new contract terms in accordance with this clause, VE will provide written notice to the Municipality that identifies (1) the Regulatory Event(s) at issue, (2) the new contract terms proposed by VE, and (3) when the proposed date that the new contract terms will take effect. Upon the occurrence of a Regulatory Event, the Parties shall enter into good-faith negotiations to modify this Agreement so that VE will be restored to a similar economic position in its costs to perform under this Agreement that it would have been in but for the occurrence of the Regulatory Event. If the Parties are unable, within thirty (30) days of such notice, to modify this Agreement and agree on such restoration, VE may terminate this Agreement by 30-day written notice to the and will take all actions necessary to return all Customers in the Program to the Utility. VE shall pay any and all switching fees.

If any Regulatory Event materially decreases VE's costs to perform under this Agreement, VE using good faith and applying the same standard of review as when monitoring and interpreting potential Regulatory Events that materially affect VE by increasing its costs to perform, shall promptly notify the Municipality that such Regulatory Event has occurred and provide written notice of the proposed decrease in each Customer's then-current price, which decrease shall be based solely on VE's estimated decreased costs to perform as a result of the occurrence of such Regulatory Event, and the proposed date upon which such revised pricing shall be effective. The Parties acknowledge and agree that the Municipality, using good faith, also may promptly notify VE of a Regulatory Event and the resulting revised pricing if it has not been previously identified by VE. Upon the occurrence of a Regulatory Event, the Parties shall enter into good-faith negotiations to modify this Agreement so that Customers in the Program will receive the benefit of such Regulatory Event, which will reflect a decrease in the Customers' costs to obtain service under this Agreement resulting from the occurrence of the Regulatory

Event. If the Parties are unable, within thirty (30) days of such notice, to modify this Agreement and agree on such positive restoration, the Municipality may terminate this Agreement by 30-day written notice. If the Agreement is terminated, VE will work with the Municipality to take all actions necessary to return all Customers in the Program to the Utility.

Customer will have thirty (30) days from the date of the written notice to affirmatively accept or reject the new contract terms. If Customer does not affirmatively accept the new contract terms within thirty (30) days of the written notice, this Agreement will terminate without penalty on the next available meter read date after the expiration of the thirty-day notice period and processing by the electric utility and VE, after which Customer will return to Customer's electric utility or another Competitive Retail Electric Service (CRES) provider of Customer's choosing for electricity.

SECTION 7 FORCE MAJEURE

7.1 Force Majeure shall include, but not be limited to the following: (i) physical events such as Acts of God, landslides, lightning, earthquakes, fires, storms (including hurricanes), or storm warnings, which result in evacuation of the affected area, floods, washouts, explosions, breakage, accident, or necessity of repairs to machinery or equipment or transmission or distribution lines; (ii) weather-related events affecting an entire geographic region, such as low temperatures that cause failure of transmission or distribution lines; (iii) interruption and/or curtailment of primary transmission or distribution lines where such interruption directly affects electric supply deliveries under this Agreement; and (iv) acts of others such as strikes, lockouts, or other industrial disturbances, riots, sabotage, insurrections, terrorist acts, or wars. VE and the Municipality shall make reasonable efforts to avoid the adverse impacts of a Force Majeure and to resolve the event or occurrence once it has occurred in order to resume performance.

7.2 Neither Party shall be entitled to the benefit of the provisions of Force Majeure to the extent performance is affected by any or all of the following circumstances: (i) the curtailment of interruptible transmission or distribution lines; (ii) the Party claiming excuse failed to remedy the condition and to resume the performance of such covenants or obligations with reasonable dispatch; or (iii) economic hardship, to include, without limitation, VE's ability to sell electric supply at a higher or more advantageous price than the price under this Agreement or the Municipality's ability to purchase electric supply at a lower or more advantageous price than the price under this Agreement; or (iv) the loss or failure of VE's electric supply or depletion of supply, except, in either case, as provided in Section 7.1.

The Party whose performance is prevented by Force Majeure must provide notice to the other Party. Initial notice may be given orally; however, written notice with reasonably full particulars of the event or occurrence is required as soon as reasonably possible. The claiming Party shall exercise due diligence to remove the inability to perform as soon as reasonably possible, if possible. Upon providing written notice of Force Majeure to the other Party, the affected Party will be relieved of its obligation, other than the obligation to make payments then due or becoming due with respect to performance prior to the Force Majeure event, to make or accept delivery of electric supply, as applicable, to the extent and for

the duration of Force Majeure, and neither Party shall be deemed to have failed in such obligations to the other during such occurrence or event.

SECTION 8 INSURANCE

8.1 VE shall carry and maintain throughout the life of this Agreement such bodily injury and property damage liability insurance as will protect it and the parties against any and all claims for personal injury, including death, or property damage, which may arise out of or result from the performance of or operations under this Agreement or from the use of any vehicle(s) in connection therewith, and shall include coverage for indemnification as described above. VE shall name Municipality as an additional named insured on its policy.

Prior to commencement of this Agreement, VE shall present to the Municipality current certificates of insurance and shall maintain current such insurance during and throughout the entire term of this Agreement. Said insurance shall, at a minimum, be of a type which is customary in the industry and shall provide coverage in an amount that is both customary in the industry and equal to and covering all sums which VE may or shall become legally obligated to pay as damages. VE shall be responsible for any and all premiums for such policy(ies).

In addition to the rights and protections provided by the insurance policies as required above, the Municipality shall retain any and all such other and further rights and remedies as are available at law or in equity.

SECTION 9 INDEPENDENT CONTRACTOR

9.1 VE agrees that it shall act in performance of this Agreement as an independent contractor. No agency, employment, joint venture, or partnership has been or will be created between the parties hereto pursuant to the terms and conditions of this Agreement.

VE assumes all responsibility for any and all federal, state, municipal, or other tax liabilities, along with workers compensation, unemployment compensation, contributions to retirement plans, and/or insurance premiums which may accrue and/or become due as a result of compensation received for services and/or deliverables rendered and/or received under or pursuant to this Agreement.

VE and/or its officers, officials, employees, representatives, agents, and/or volunteers are not entitled to any benefits enjoyed by employees of the Municipality.

SECTION 10 INDEPENDENT CONTRACTOR ACKNOWLEDGEMENT/NO CONTRIBUTION TO OPERS

10.1 The Municipality is a public employer as defined in ORC Section 145.01(D). The Municipality has classified VE as an independent contractor or another classification other than public employee. As a result, no contributions will be made to the Ohio Public Employees Retirement System ("OPERS") for or on behalf of VE and/or its officers, officials, employees, representatives, agents, and/or volunteers for

services and/or deliverables rendered and/or received under or pursuant to this Agreement. VE acknowledges and agrees that the Municipality, in accordance with ORC Section 145.038(A) has informed it of such classification and that no contributions will be made to OPERS. If VE is an individual or has less than five (5) employees, VE, in support of being so informed and pursuant to ORC Section 145.038 agrees to and shall complete and shall have each of its employees complete an OPERS Independent Contractor Acknowledgement Form, which is attached hereto and incorporated herein as a part of this Agreement.

SECTION 11 CAMPAIGN FINANCE

16.2 Entire Agreement. This Agreement, including all attachments hereto, contains all of the terms and conditions of this Agreement reached by the parties, and supersedes all prior oral or written agreements with respect to this Agreement. This Agreement may not be modified, amended, altered or supplemented, except by written agreement signed by all parties hereto. No waiver of any term, provision, or conditions of this Agreement, whether by conduct or otherwise, in any one or more instances, shall be deemed to be, or shall constitute a waiver of any other provision hereof, whether or not similar, nor shall such waiver constitute a continuing waiver, and no waiver shall be binding unless executed in writing by the Party making the waiver.

The failure of either Party to insist upon strict performance of such requirements or provisions or to exercise any right under this Agreement shall not be construed as a waiver or relinquishment of such requirements, provisions or rights.

16.4 Governing Law. This Agreement shall be governed by and interpreted in accordance with the laws of the State of Ohio without regard to any principles of conflicts of laws that would apply the law of another jurisdiction.

16.7 Assignment. This Agreement shall not be transferred or assigned by either Party without the express written authorization of the other Party, which authorization shall not be unreasonably withheld.

Notwithstanding the foregoing, VE may, without the consent of Municipality or Customers, (a) transfer, sell, pledge, encumber or assign this Agreement or the accounts, revenues or proceeds hereof in connection with any financing or other financial arrangement; (b) transfer or assign this Agreement to an affiliate of VE; or (c) transfer or assign this Agreement to any person or entity succeeding to all or a substantial portion of the assets of VE. 16.10 No Third-Party Beneficiaries. This Agreement confers no rights or remedies whatsoever upon any person or entity other than the Parties and shall not create, or be interpreted as creating, any standard of care, duty or liability to any person or entity not a Party hereto. Each person who executes this Agreement on behalf of either Party represents and warrants that he or she has full and complete authority to do so and that such Party will be bound thereby.

VESI recognizes the difficult job facing elected and appointed officials in running and maintaining our local communities, therefore as part of VESI Community Reinvestment Program, VESI will contribute \$0.0005 per kWh of electricity supplied through the aggregation program to the Municipality. These funds are to be deposited into a special account established by the Municipality. **Subject: 2022 Reynoldsburg Street Maintenance Program
Proposal for Engineering and Bidding Services**

Dear Mr. Dorman:

EMH&T is pleased to submit our proposal for engineering and bidding services for the City's 2022 Street Maintenance Program. This scope of services includes field evaluations, cost estimates, program exhibits, specifications, and bidding services for the street segments that have been identified by the City. Additionally, we have included the services necessary to prepare construction documents for a "complete street" improvement to Broadwyn Drive and the details necessary for the City's annual sidewalk assessment program.

Based on our previous discussions with the Service Department staff, we anticipate the 2022 Street Program will include the following:

- Resurfacing of approximately 8-12 streets along with curb repairs, curb ramp improvements and full depth pavement repairs.
- Preventative maintenance with a focus on crack sealing any composite pavements that have been resurfaced within the past five to ten years. Additionally, the application of asphalt rejuvenator to the streets that were resurfaced on the 2021 program will be incorporated. We understand that the City would like to commit approximately 5-10% of the street program budget to preventative maintenance.
- Storm structure repairs will be performed on structures located in the project areas.
- Full depth pavement repairs, curb repairs, and curb ramp repairs on SR 256, which will be resurfaced in 2023 as part of ODOT's Urban Paving program.
- Sidewalk program will be performed on the final list of streets that are included in the street maintenance program.
- A complete street improvement on Broadwyn Drive, which will include full curb replacement reconstruction / resurfacing of the roadway, sidewalk replacement, establishment of a tree lawn on the north side of the road, and drainage improvements as needed.

The Proposed 2022 Roadway Projects table, which is attached to this proposal, shows a preliminary list of streets that are under consideration for inclusion in the program. It is our understanding that the City's construction budget for the 2022 Street Maintenance Program is approximately \$2,000,000. Therefore, our services are based on an assumption that the preliminary list of streets will be cut down to fit within this budget.

SCOPE OF SERVICES

The Scope of Services for this improvement is outlined below:

1. Street Resurfacing Program

- a. Conduct kick-off and progress meetings with the City throughout the design phase. During the kick-off meeting, EMH&T will work with the City to identify the list of streets that will be assessed in the field. The 2022 Roadway projects table will be used as a starting point for selecting candidate streets.
 - b. We will review record plans for each of the roadway segments and perform pavement cores (through a subconsultant) to verify the existing pavement condition and composition.
 - c. EMH&T will conduct street program field work, which will include the following:
 - i. Identify and measure areas that exhibit settlement and cracking patterns, which are indicative of full depth pavement failure.
 - ii. Measure areas of broken, settled, and failing curb. If the quantity of broken curb exceeds 30%-40% +/- of the total curb quantity on that street, it will be recommended for full curb replacement.
 - iii. Assess existing curb ramps to determine if they are compliant with the Public Right-of-Way Accessibility Guidelines (PROWAG). For non-compliant ramps, measurements will be taken to determine curb ramp replacement quantities.
 - iv. Evaluate existing storm structures within the roadway corridors to identify aged and deteriorated structures that require adjustment or reconstruction.
 - d. EMH&T will prepare street program exhibits using GIS and record plan information to show the planned improvements on each street.
 - e. We will prepare preliminary and final cost estimates for street program work using the field measurements.
 - f. EMH&T will conduct two progress meetings with the City during schematic design to review project budgets and finalize program details.
 - g. EMH&T will prepare an overall street program exhibit, which can be placed on the City's website to inform the public.
 - h. EMH&T will prepare detailed street program specifications, which outline any supplemental instructions, general provisions, and scheduling requirements.
2. Curb Profiles
- a. For streets that require full curb replacement, EMH&T will provide curb profiles to correct any existing sags or flat spots within the existing curb drainage system. Based on previous street program experience and a preliminary review of the candidate streets, we believe that approximately 12,000 to 15,000 linear feet of continuous curb replacement will be necessary. The fee for this work is based on an assumption that no more than 15,000 linear feet of curb survey and curb profiles would be necessary.
 - b. This will include topographic survey of the existing curb, roadway pavement, tree lawn, drive approaches, curb inlets, and sidewalk.
 - c. Proposed curb grade sheets will be provided to the Contractor for staking prior to curb removal. The profile sheets will include existing and proposed curb grades, limits of driveway replacement, and adjustment details for any curb and gutter inlets along the roadway.
3. Preventative Maintenance

- a. EMH&T will work with the City to identify a target area for surface treatments. It is anticipated that crack routing and filling / sealing would be performed on one or two arterial or collector streets.
 - b. We will conduct fieldwork necessary to verify that crack sealing is an appropriate rehabilitation technique. This includes measuring crack widths to verify that are not too wide for the successful application of crack seal.
 - c. Preventative maintenance will also include asphalt rejuvenator for the streets that were resurfaced under the 2021 street program.
 - d. EMH&T will prepare cost estimates and exhibits for use in public bidding.
- 4. Broadwyn Drive Survey and Design
 - a. Based on previous discussions with the City, it is our understanding that the City intends to perform a larger “complete street” improvement on Broadwyn Drive, which will most likely involve curb, drainage, tree lawn, sidewalk, and curb ramp improvements between Lancaster Ave. and Graham Rd. This improvement will likely involve a combination of reconstruction and resurfacing to complete the improvements. EMH&T will begin by performing topographic survey of the roadway corridor within the public right of way.
 - b. EMH&T will prepare a more detailed plan set for this component of the 2022 Street Program which will include the following:
 - i. Title sheet, general notes, and estimate of quantities
 - ii. Project details
 - iii. Roadway plan and profile sheets
 - iv. Storm drainage details
 - v. Street trees
 - vi. Sedimentation and erosion control
 - vii. Maintenance of traffic
- 5. Sidewalk Assessment
 - a. EMH&T will assist the City by performing sidewalk program assessments, cost estimates, and bidding services. Assessments will only be conducted on the streets that are selected for inclusion in the final street program. Based on prior experience, it is anticipated that sidewalk assessments will incorporate approximately 250 parcels. If this number is exceeded, additional fees for field inspections may be necessary.
 - b. Pre-assessment Work
 - i. EMH&T will prepare a GIS database, which will be used to collect the sidewalk program deficiencies and generate exhibits showing the areas that are planned for sidewalk replacement.
 - ii. The software will be loaded onto a touchscreen data collector and tested in the office prior to deployment to the field.
 - c. Field Assessment
 - i. EMH&T will perform field investigations using the handheld data collector for the 187 parcels included in the program.

- ii. EMH&T will identify sidewalk deficiencies according to the criteria outlined below:
 - iii. Vertical Offset – Sidewalk panels that are vertically offset by ¼” in rise/fall or greater at the panel joint
 - iv. Grade Change
 - 1. Excessive rise or settling along the panel of greater than 1” per foot
 - 2. Sidewalk has negative pitch causing it to hold water rather than drain to the street
 - 3. Settlement between panels causing a dip in the walking surface
 - v. Surface Deterioration
 - 1. Excessive broken areas or cracks in the sidewalk panel
 - 2. Voids, spalling (pitting) or surface deterioration greater than ¼” in depth.
 - vi. Joint Failures indicated by multiple cracks at the joint between panels
 - vii. Missing slabs or panels
 - viii. Other conditions causing unsafe surface in the opinion of the City and their authorized representatives
 - ix. The collection database will include Parcel ID, address, owner name/address, and tax billing information.
 - x. The type of deficiency will be identified along with quantity measurements for replacement.
 - xi. Any deficiencies that appear to be the result of root upheaval from street trees will be flagged and information provided to the City for coordination with the Master Arborist, who will determine if the tree should be removed as part of the program.
- d. Data Analysis and Deliverables
- i. EMH&T will review the field data once complete and compile the data by Parcel ID along with a sub-summary for each street and a total opinion of probable cost.
 - ii. A summary report including an exhibit will be prepared for coordination with each property owner.
 - iii. EMH&T will prepare specifications and incorporate the sidewalk program quantities into the bid for the 2022 Street Maintenance Program. A separate set of bid documents is not anticipated. We will develop specifications outlining the procedure for the sidewalk work and timeframes, which will be based on the City’s assessment legislation timeline.
 - iv. EMH&T will coordinate with the City on legislation by providing data and exhibits for the sidewalk assessment program. Drafting of the legislation and scheduling it for the necessary readings and public review periods is assumed to be handled by the City. Mailing of resident notices and tracking responses is also assumed to be performed by the City.

6. Bidding Services

- a. Prepare 15 sets of bidding documents and publish the notice to contractors

- b. Respond to any requests for information from bidders during the bidding process
- c. Attend bid opening
- d. Prepare bid tab, award recommendation and conformed copies of the contract documents

EXCLUSIONS:

1. Topographic survey with the exception of curb survey for continuous curb streets and Broadwyn Drive. The street program will be characterized and bid using GIS exhibits with an aerial photo background.
2. Subsurface evaluations besides the pavement thickness cores.
3. Construction phase services. A follow-on proposal for construction administration and on-site representation will be prepared and submitted to the City following bidding.

SCHEDULE

We are prepared to begin work identified in this proposal immediately upon receipt of Authorization to Proceed from the City of Reynoldsburg. Assuming authorization is granted in October 2021, we anticipate that the project can be bid in February 2022. If the sidewalk assessment is added to the scope, this schedule will likely need to be refined to incorporate timeframes for legislation and resident notification.

FEE

These services will be provided as per the conditions of our Professional Services Agreement and the associated Time Rates for the City. Fees for the work described within the Scope of Services shall be hourly not exceed the amount shown in the Fee Summary table, below, without prior authorization from the City. Invoices will be submitted monthly and based on the progress of the work and are payable upon receipt.

Subject: Proposal for Professional Services – Waggoner Road Survey & Preliminary Engineering

Dear Mr. Dorman,

EMH&T is pleased to present this proposal for professional services related to survey and design of improvements to Waggoner Road between Main Street and Broad Street. Our recommended scope and fee are outlined below. This work will be performed in accordance with the terms and conditions of our current Master Service Agreement with the City.

A. PROJECT UNDERSTANDING

1. Scope of Improvements to be Designed

- a. Waggoner Road will be widened and reconstructed from Main Street to Broad Street (approximately 11,000 linear feet). One through lane will be provided in each direction, along with center turn lanes as generally shown on the enclosed Schematic Exhibit;
- b. The roadside will feature curb and gutter, with a closed-conduit stormwater drainage system;
- c. A shared-use path will be constructed on one side of the road and a sidewalk will be constructed on the other side. The location (side) of each will be determined during design.
- d. Crosswalks will be provided at intersections and other strategic locations. Enhanced traffic control (Rectangular Rapid Flashing Beacons, or similar) will be considered for crossings of Waggoner Road at un-signalized intersections;
- e. Street lighting will be installed along the roadway.
- f. Existing overhead utilities will remain overhead, relocated where necessary in coordination with the roadway design;
- g. The existing Bridge over French Run will be widened/extended to accommodate the proposed road section;
- h. Approximately five stormwater drainage pipe/box culverts will be extended throughout the corridor where required;
- i. The existing traffic signals at both Rodebaugh Road and Ross Way (Waggoner Road Jr. High School) will be modified or replaced to accommodate the pavement widening and pedestrian facilities;
- j. Traffic signals at Main Street and Broad Street will remain undisturbed by the project.

2. Phasing

We understand that the City intends to construct the Waggoner Road Improvements in two phases. Phase 1 will extend from Main Street to just north of Priestly Drive. The second phase will extend from Priestly Drive to Broad Street. The survey and preliminary engineering tasks outlined below will cover both Phase 1 and Phase 2 project limits.

B. SCOPE OF SERVICES

EMH&T's professional services will include documentation, design, and coordination to successfully advance the project. The following tasks are anticipated:

1. Survey & Basemapping

EMH&T will perform topographic and boundary survey of the project area to support design activities. This will include the following services:

- a. Research available public records such as deeds, plats, and right-of-way plans (easement research will not be performed as part of this task but be appropriate as part of a future task);
- b. Recover existing monumentation (fee includes up to 24 hours of law enforcement officer time to assist the recovery of centerline monuments within the roadway).
 - i. Property pins will be recovered along the right-of-way but not in rear property corners. Property lines will be plotted based upon record information. Rear property corners will be recovered to confirm property lines as part of a future phase of work when the specific right-of-way needs of the project are better understood;
- c. Establish control network including up to eight horizontal control points using GPS and up to eight benchmarks;
- d. Request plans and markings of underground utilities through the Ohio Utilities Protection Service;
- e. Perform topographic survey of the project corridor;
- f. Gather record plan information from the City and County;
- g. Prepare topographic and boundary basemaps in AutoCAD for use in design and plan production.

2. Preliminary Geometrics Design

The conceptual geometrics shown on the enclosed Schematic Exhibit will be refined to a level commensurate with detailed design activities.

- a. Refine horizontal geometrics;
- b. Geometric design of proposed cross street intersections / driveway locations (8 intersections, 14 commercial driveways, 50 residential driveways). AutoTurn analysis will be performed for intersections and commercial driveways where appropriate;
- c. Design vertical alignment (profile);
- d. Design typical sections;
- e. Develop preliminary cross sections and design roadside grading;
- f. Identify locations and limits of retaining walls;
- g. Develop schematic layouts for utility features such as water mains and street lighting;
- h. Develop preliminary traffic signal layout;
- i. Develop preliminary construction limits;
- j. Prepare and submit a Preliminary Geometrics Plan (scroll plot) for review by the City.

3. Preliminary Stormwater & BMP Design

Preliminary stormwater drainage and BMP design will be prepared in accordance with City of Reynoldsburg standards and ODOT's Location and Design Manual Volume 2 to support preliminary engineering and cost estimate development.

- a. Identify outfalls and develop tributary area mapping;
- b. Preliminary inlet spacing design;
- c. Preliminary storm sewer calculations;
- d. Post-Construction Stormwater BMP concept development;

- e. Perform preliminary culvert analysis
 - i. Preliminary hydrology to determine approximate peak flow rates;
 - ii. Preliminary hydraulics analysis of impact of roadway reconstruction on culvert performance and flood routing conditions;

4. Preliminary Construction Plans

Preliminary construction plans (approx. 30% complete) will be developed in general accordance with City of Reynoldsburg and ODOT standards. The following plan elements will be included:

- a. Title Sheet;
- b. Schematic Plan with Survey Control;
- c. Typical Sections;
- d. Plan & Profile;
- e. Cross Sections;
- f. Traffic Control Plan (Striping Only);
- g. Right-of-Way Exhibits depicting the type and location of permanent and temporary right-of-way needed along the corridor.

Plans will be submitted electronically to the City and Franklin County Engineer's Office for review upon completion of 30% complete plans. Comments received will be addressed as part of final engineering. Plans will also be submitted to private utility companies for verification that their facilities are shown completely and accurately.

5. Opinions of Cost

EMH&T will prepare detailed project cost opinions including design, construction, and right-of-way acquisition costs. Quantities will be based on preliminary construction plans. Unit pricing will be based upon historical bid information. Right-of-way costs will be generally based upon Franklin County Auditor valuations and should be verified by a real estate professional.

6. Project Advocacy, Coordination, and Meetings

We anticipate the following services related to project advocacy, coordination, and management.

- a. Attend progress meetings with the City and other stakeholders (assume two staff at six meetings).
- b. Prepare exhibits for meetings and coordination;
- c. General project coordination and oversight.

However, changes in work may be required as the project develops and more complete information becomes available. Such changes also may be dictated by revisions to written procedures included in manuals or decisions made by, the Client, the City, or other reviewing agencies. Although EMH&T routinely incorporates minor design changes in our work, we will notify the Client in writing of any significant changes in the work that may require modification of the agreement, and will maintain separate cost accounting for each specific issue.
