4. Discussion

**a. Resolution Authorizing Participation in Odot Winter Contract (018-18) and Declaring an
Emergency. (First Reading 4/24/2017).**

Mr. Sampson: Thank you Chairman Long, President Joseph and members of Council. This is for permission to contract with the Ohio Department of Transportation winter road salt contract. We currently have about 23 tons and the plan would be to acquire 15 additional tons. The City typically uses 1800 tons per year, fortunately we had a very generous winter that we didn't use as much salt as we anticipated. We do need to pass this as an emergency to execute the contract. That is simply to execute the contract, the money will be part of the 2018 budget. We've been a part of the contract for 2 years and it has been very good pricing and it has been a very good program.

Mr. Long: I have one question. In the past we've also left our options open to other contracts. This doesn't obligate us to buy here, like one year we had a contract with a group out of Georgia and we were able to get on their consortium and saved additional monies over and above what ODOT was going to charge us.

Mr. Sampson: No sir, Mr. Chairman, it does not commit us to ODOT. We can still explore other alternatives. They issue their contract now, which has been received and it's a 2 week window to turn around and get it back to ODOT, so.. no we're not committed.
