4. Discussion

a. Acceptance of the OCJS Grant to Assist with the Purchase of New MDTs

Chief O'Neill: Thank you Chairman Long. As part of our long term plan for upgrading our MDT capabilities in the cruisers, we're looking to some possible updates to our software. In order to do this according to the IT people we've been talking to, we need to update our hardware at this point. So about a year ago, we went to the state and asked for a \$20,000 grant to start of kick start that effort and were turned down, but through the county, they placed us in line for another grant and we received word earlier this year that we were in line to receive a \$10,166.86 to apply towards the purchase of some MDTs. It won't cover all of our costs for replacing these, but this money and along with some of the budgeted money from the budget, we'll be able to replace a good bit and we're willing to utilize some of our special enforcement fund money to replace the balance of these computers. So this is kind of the first step in a long process to update our capabilities. There is a \$1,129.66 match that we need to come up with, but given the fact that they're ready to give us over \$10,000 if we're willing to spend just over 1 is kind of a no-brainer to me. So..

Minutes Acceptance: Minutes of Apr 6, 2015 7:30 PM (Approval of Minutes)

Mr. Long: I understand from talking to some of the officers that there are issues with the current MDTs, that they're not robust enough.

Chief O'Neill: Yeah, as we start to load more and more recent software on these things, the requirements for the processing sort of gets stretched a bit and they're not operating. Our system is not operating at the most efficient level that it could be. So a little bit of an upgrade to the hardware will go a long way to solve that problem.

Mr. Long: And you're asking for an emergency on this?

Chief O'Neill: yes.

Mrs. Kelly: I absolutely agree with you. I think any time we are in the position to move on a large sum of money that is coming forward from a Grant, we really need to give it some strong consideration as to why we wouldn't do something like that. Especially when it comes to doing something that is going to help the police officers keep the community safe so good job.

Mr. Long: Any other comments from members of the Committee? I'll make a motion sending this on to Council, you want this one reading Chief? I'm seeing a deadline on this.

Chief O'Neill: Yes please, yeah we do need, you can see the deadline is actually past, but we were able to sort of work out an extension with them. We need to have this money spent by mid-August to get all of our accounting done and close out their fiscal year which I believe is the end of September so they're asking that we get this money spent as soon as possible.

d. Repeal and Replace Ordinance 25-15

Mr. Long: This is a repeal of Ordinance 25-15. What was omitted was a start date of June 1st. So what will happen is we will send this on to Council next week, there will then be a motion made to go ahead and repeal and replace that ordinance creating a new ordinance which will have the state date inserted. Any questions?

Mr. McGrady: what is the start date?

Mr. Long: June 1st. That is the way it was originally intended, it was just omitted from the ordinance. If you noticed any of the news stories, the news stories had it correct, from talking to Mr. Harris and also to our water superintendent.

To be sent forward as an emergency.

MEMORANDUM

Date: 10 April 2015

To: Chief O'Neill/City Council

From: LT R. Wright #90 *RW*

Subject: Purchase of New Mobile Data Terminals

The Division of Police requests to replace the current lap top computers utilized in the patrol vehicles. Some of the laptop computers are 10 plus years in age and can no longer receive RAM upgrades to operate current/updated software. This inhibits the ability of the police department to function efficiently while utilizing digital records management systems.

A. Test/Evaluation and Recommendations: After testing and evaluating three different systems, the police department is requesting to replace the current laptop computers with actual mobile data terminals (MDT). We conducted testing and evaluation as stated with recommendations as follows:

1. OEM Micro TAC-412: This is an actual MDT designed by OEM Micro after consulting with police officers. The system is upgraded to current hardware specifics giving us the ability to run all modern software. This MDT is configured for police use with larger, easily located buttons to power the unit, control the brightness, control the volume, and blank out the screen when necessary. The MDT is rugged with a sealed, waterproof keyboard and does not create a "platform" to set drinks and food that could contaminate the system. The keyboard is detached from the main unit to where an officer can set the board in his lap to use; thus alleviates the officers from twisting their backs to type on the MDT. The size of the system does not restrict space in the front passenger seat. The system itself has seven USB ports offering complete flexibility to attach various other devices for the officer to use. Plus there is an extra port to plug the in car camera system into the MDT. This MDT offered the most officer/user-friendly specifications above the other devices that we considered/tested. I contacted three other Ohio Police Agencies who all highly recommended this unit. All three used the Panasonic Toughbook prior to installing the OEMs. All three agencies were most impressed by the support offered by OEM to upgrade and repair the units when required.

OEM shipped us a unit to test and evaluate with our officers, and I received very positive feedback from the officers who conducted the evaluation. I recommend purchasing this unit for future use with the Reynoldsburg Division of Police.

Attachment: MDT legislative request (1050 : Purchase of 15 OEM Mirco MDTs)

2. Panasonic Toughbooks: This is the device currently used by the police department. This device served the department well over the past ten years; however, it is not an actual MDT. It takes up a large amount of space inside the newly designed cruisers, sometimes inhibiting the ability to place an officer in the passenger seat. It clearly does not offer the same specifications as listed on the attached "MDT Tech Spec Comparison." The only positive comparison feature that is offered by the Toughbook and not with the OEM is the fact the Toughbook is portable given it is a laptop. The configurations of the buttons with the newer laptops on the market are similar to configuration of the buttons and keyboard on the older models we currently possess. Those buttons are sometimes hard for the officers/users to access in the cruisers. This laptop offers only four USB ports where all of them are currently used by various, necessary devices to where none are open. The keyboard is affixed to the unit to where the officers need to twist their backs to use.

I recommend not continuing use with this laptop.

3. GETAC: We received one of the GETAC laptop computers through the 1033 program offered by the Defense Logistics Agency; therefore, our department has conducted an extensive test and evaluation of the system. The GETAC is a laptop computer that is a slight step down to the Panasonic Toughbook. It does have a shock casing similar to the Toughbook to give the computer some durability, and the buttons to control the various functions are the same as the Toughbook. Additionally the keyboard is affixed causing the officers to twist their backs to use. This system only has 3 USB ports for use.

While the GETAC we are currently using is more modern than our Toughbooks and served a good purpose, I recommend not purchasing this laptop.

4. PatrolPC: Not much is known regarding the PatrolPC computer. The IT Director researched the company, which is based in the New England State area, and requested a quote with a test and evaluation unit. His attempts to work with the company were unsuccessful as they did not seem interested in conducting business with our city.

Given the companies lack of response regarding purchasing, I recommend not pursuing this company for their system.

B. Competitive Bidding and Recommendation: I request to waive competitive bidding and recommend purchase of 15 OEM Micro TAC-412 MDTs. I request the waiver based on the following:

- The items we are requesting to purchase are technology based.
- We conducted a thorough test and evaluation of three different systems before reaching a decision on which system we wanted to purchase (PatrolPC did not send us a unit for test and evaluation) – and the OEM Micro MDT is

the best system for the money (even though they were the highest cost of three of the systems tested).

- OEM Micro is a company based out of Michigan and has applied to be added to Ohio State bid.
- OEM Micro was highly recommended by the following Ohio agencies:
 - Willoughby Police Department
 - Wickliffe Police Department
 - Rocky River Police Department

C. Funding: The City has already received a State grant in the amount of \$10,336 to apply towards the purchase of new the new MDTs; this was received after applying for four grants and only receiving approval from one of the applications.

I request to use funds from the Special Law Enforcement Fund to purchase 15 OEM Micro TAC-412 MDTs in the amount of \$57,237.80. Cost break down as follows:

15 OEM Micro TAC-412 MDTs	\$61,275.00
STATE GRANT FUNDING	-\$10,166.86
MATCHING FUNDS	+\$1129.66
Unforeseen Issues during installment	+\$5000.00
TOTAL:	\$57,237.80

Subject: RE: MDT Comparison List

Ron,

I can say that all three candidates we've tested have performed very well (Toughbook, GETAC and OEM Micro), both from a technical standpoint as well as operational. With that being said, I'd have to say the OEM Micro TAC-4 computer is still my preferred choice for MDT.

The OEM Micro TAC-4 computers provide an ease of use with the combination of the touch-screen as well as hot buttons on the outer shell of the screen allowing the officers to quickly dim the screen, adjust the volume and even power off the unit, even while wearing gloves. It also provides more flexibility with the multiple USB ports, enabling us to attach various devices as we need. The dual-network ports allow us to attach the Kustom Signal camera system to these units without taking away the ability to still connect to a wired network for diagnostics or LPR unit if needed. The position of the monitor and keyboard help keep the officers from accidentally damaging the dash or spilling their drinks into the computer, as well as enabling a 2nd officer to easily access the MDT when riding in tandem. Since we've had the demo unit installed, Roger and I have not received any service tickets on the TAC-4 computer, even with the extreme cold we've had this past winter.

Overall, I feel the ruggedness of the OEM Micro TAC-4 computer, along with its flexibility and power, will help improve officer efficiency and lend itself to less downtime.

Ron,

I compiled a list of four (4) MDT systems and their specifications: OEM Micro, Panasonic Toughbook, GETAC and Patrol PC. The spreadsheet compares their hardware item to item and then gives a recent quoted price at the bottom of the list. Along with the spreadsheet, I've also attached copies of each of these quotes. Please let me know if you have questions.

DATE: April 20, 2015**TO: City Council****RE: ORDINANCE AUTHORIZING CITY AUDITOR TO REMOVE
EQUIPMENT FROM THE CITY'S FIXED ASSET LIST. (Police cruisers
~ First Reading 4/13/2015).**

The Division of Police received 2015 budget approval to purchase three new cruisers. This ultimately rotates the three oldest cruisers from the fleet. We received a quote from the Lebanon Ford Dealership regarding trade in value for the following:

- 2009 Ford Crown Vic (245), 2FAHP71V69X101534 (118,870 miles): \$1200.00
- 2009 Ford Crown Vic (246), 2FAHP71V89X101535 (168,995 miles): \$1200.00
- 2009 Ford Crown Vic (247), 2FAHP71VX9X101536 (116,739 miles): \$1200.00

Therefore, we respectfully request the following:

1. Permission to receive the trade in value for each of the cruisers and apply the value towards the cost of the three new cruisers.
2. Permission to remove the above listed cruisers from the fixed asset list.
