Mr. Hornak is speaking on behalf of Cindy Martino. He explains that she resides next to vacant property. The City has a diverse population and one commonality that the residents all share is an interest in agriculture. Ms. Martino would like to establish a community garden in the vacant lot. The property owner is willing to part with the property. Amazon is on board with the project as well. Mr. Hornak feels this could become a bonding area and project for the community and the City as well as provide healthy nutrition.

Karla Poole, 2489 Ashcroft Loop, Blacklick, 43004

Durga Mishra, 3018 Hollybank Road, Reynoldsburg, 43068

(COPLTI) Ms. Mishra's project through the COPLTI organization is about child safety. Her project is to build a crosswalk at Tussing Road. Tussing Road Elementary busses 150 students. The students are not allowed to cross the road during school hours but after hours and on the weekends, kids cross the road to use the playground. This is a safety issue. Ms. Mishra is working with Far East Area Commission. Her 20 week training is over in 2 weeks but her project will continue and begin after she graduates. Her training with COPLTI has taught her to speak in public and address her community needs with the proper parties with confidence.

Parks and Rec to plan a way to invite moms into the recreation centers and eliminate the intimidation factor. The third P is for Partner. He chose community gardening and organic farming for his project. This program will bring people of all backgrounds together as well as give good nutrition for better the community health. The program will education people on what organic farming is and composting. He is involved in Columbus at Capital Park, there is a health center where they started Global Farming. Global farming is where people from different parts of the world bring particular crops from their country and grow them in the same garden and learn from each other.

Thaah Young, 9167 Taylor Road, Reynoldsburg, 43068

Ms. Young took a moment to thank Ms. Jenkins for taking attention to issue from the previous Council meeting.

(COPLTI) Ms. Abrams project is called creative currency. Her project brings all of the projects together on a platform. Her project is similar to the Next Door app by posting about their interest and strengths within the community. For an example she would be a resource for someone who is looking to get into a design field as she was a graphic design in New York City. The app provides knowledge of who has skills and is willing to help other in the community using those skills.

Valencia Byers, 8553 Landseer Drive, Reynoldsburg, 43068

Ms. Martino began working with Amazon to purchase the property in front of Green Tree Development. She is going to be making a proposal to Amazon for the community garden. She knows there are going to be issues with the project but thinks Amazon will help with those issues and feels it would be a good use of the property and beneficial to the community. She stated the property owner is willing to part with the property but Mr. Bowsher feels the City may not be willing to do that. Ms. Bauman advises Ms. Martino of the two community garden locations, each one has 44 plots. One being at Civic Park and the other behind the fire station on Livingston Avenue. It is \$40 to rent per plot for residents and \$50 for non-residents. You can register for a plot in the Parks and Recreation Department.

Councilmember Pyakurel speaks on COPLTI, he graduated from a similar program in Colorado in August of 2014. He brought his knowledge back here and started a Civic Design Team, with the former Chief of Police Jim O'Neill, they were able to raise \$1000.00 from the community to start the first class. Budget Presentation - Mayor Begeny

Mayor Begeny speaks on the 2020 Budget for the City of Reynoldsburg. There is a balanced budget this year. The general fund revenue ended for 2019 around \$22,837,000.00. The 2020 budget was reduced to \$22,000,000.00. A lot of time was spent working with each department to find ways to be under budget. That is a 7.8% increase from the previous year's budget.

Chief Plesich summarizes the budget for the Police Department and explains the bulk of the budget is salaries and that is determined by the contracts with the unions. They are authorized for 70 officers and they are 68 which is an increase from last year. Among many other things that cannot be negotiated. There is a 10.4% increase from last year's budget mainly from the personnel increase and a third K-9 unit being added to the force as well as body worn cameras being equipped for the rest of the officers.

Donna Bauman, Director of Parks and Recreation, explains their budget has decreased from what was in the interim budget. They have 3 total budgets, Parks and Recreation, Senior Center and Community Events, to include the Tomato Festival, Food Truck Festival etc. The Senior Center budget is mostly the same as 2019. They are asking for \$15,000.00 from the 5600 account to purchase a new sound system for the Senior Center. Other than the 5100s, which are salaries, everything stayed the same. The Parks and Recreation budget includes the park maintenance, sporting programs and events. Most expenses are in the 5200s which is supplies, this would be sporting uniforms, sports equipment, chemicals applied to fields, gravel, mulch, small hand tools. 5300s are service, which houses the contract for Street Scape which is \$121,000.00 for the maintenance as well as \$18,000.00 for irrigation. This also includes sporting officials and program instructors which is about \$72,000.00. 5600s is capital purchases, they are asking for just a few items and that account was cut quite a bit. They are asking for a new water trailer to water the hanging baskets, the current one is being held together with duct tape. A new field liner for the soccer fields. Hot water pressure washer to allow for cleaning of the tennis courts and equipment. As well as a sound system for Huber Park. A portable mound for one of the baseball diamonds is included in there as well. Ms. Bauman explains to Mr. Cotner that they found very safe and cost effective pitching machines. Only two had to be purchased and the other 10 were purchased with points. Mr. Cotner asks why the sibling discount was taken away for the baseball program and Ms. Bauman explain that this was taken for granted and the registration system doesn't

recognize the difference in programs when applying the discount. Ms. Bryant inquires about the status of the dog park and Mayor Begeny explains that it was set for the CIP Fund for the 2021 year but they are in the process of working on a comprehensive parks plan for some long term goals. Some possible topics would be using Civic Park for more than the fourth of July and add a second entrance. If the City is going to upgrade any parks facilities that it would be wasted and have to be torn down later on. They still have to figure out if it will fit the priority at Civic Park or if it will be at another location. The Community event budget has a substantial increase from 2019. Some other event were shorted previously to pull money for the Tomato Festival. This year they are asking for \$198,000.00, which is in the grouping services 5300 account. This is where entertainment, advertising, port-a-johns will come from. Last year the Tomato Festival costs \$122,980.00, this year for the Tomato Festival specifically is budgeted for \$165,634.00, this will include tent permit, alcohol permit, entertainment, production company for staging and lighting, electric, fencing and anything that will come with the Tomato Festival. Advertising dollars overall have been increased for all the community events. Last year the City received \$18,600.00 and this year so far they around \$9,000.00, which is specific for the festival.

The Development Department budget is about \$466,000.00, which is a 25% decrease from last year. Most of these expenses are from salaries, personnel and day to day operation. The Service Department is around 1.2 million and the Building Department is around \$500,000.00. The Service budget consist of personnel along with street lighting, engineer and architecture contracts as well as emergency management contracts.

Mayor Begeny states the Police Department holds 57% of the City Budget which is around \$12,000,000.00. With Parks and Rec being the next largest. He will provide the detailed breakdown to the Councilmembers. Revenue streams will be reviewed quarterly to give the opportunity for items to be added in. There is a potential for growth this year but it was important to start with a balance budget. Mayor Begeny explained that national economic issues may have an effect on the City's finances but there are no concerns to the City that they have control over. Mr. Cicak explains that it is a good budget and the anticipated revenue was increased from the previous administration. There is a possibility of large tax refunds to some people in the City and that is one of the reasons it's so important to maintain the balanced budget. Mayor Begeny has spoken with the Limited in regards to recent events with their administration, they are staying in contact and speaking every two weeks.

AN ORDINANCE TO AUTHORIZE THE MAYOR TO ENTER INTO A CONTRACT TO PURCHASE A 2020 STARCRAFT FIFTEEN PASSENGER VAN FOR THE SENIOR CENTER, WAIVE THE COMPETITIVE BIDDING PROCESS, AND APPROPRIATING FUNDS, AND DECLARING AN EMERGENCY --- Baker. Development, Parks and Recreation Committee.

Ms. Bauman explains that the Senior received a bequeath from an anonymous member in the amount \$600,000.00, they used part of this money to buy a bus for the Senior Center last year and this year they would like to purchase a van. The funds are only used for Senior Center needs like the bus and the van and not to pay employees or anything of that nature. The donor wanted the money to enhance the experience for members of the Senior Center. The decision on how the money is used to left to the Parks and Rec Director and Senior Center Manager, working together as well as the board over the Senior Center members. Ms. Bauman has asked the competitive bidding be waived for this purchase, there were two companies and quotes, one located here locally in Central Ohio and the other being in Toledo. It is a recommendation from the fleet mechanic to purchase from the local company as they have a lower price and any warranty work being done would be here local. This type of van does not need a special license to drive and there for the Senior Center Staff can drive the van, Parks staff have their CDL license and they drive the bus. This new van will allow for more comfort for the seniors and storage as well. Ms. Bauman did not request an emergency read on the legislation and Mr. Baker states that it will be removed.

Mr. Baker makes a motion to amend the legislation to remove the emergency language, second by councilmember Lawson-Rowe. Motion carries.

This item refers to the engineering to continue the process with the OPWC that was awarded in December. It also coordinates with the ODOT repaving schedule of 2021 for Main Street. Mr. Dorman the Service Director will be in charge of this. This is the portion of the street scape project for Old Reynoldsburg where alternating on street parking during peak hours, expanded sidewalks, better pedestrian access, replace 1930's stormwater system, redo sidewalks, concrete and brick pavers. This will make way for pedestrian friendly downtown. This will be constructed in 2021 and the surveying will start in the summer of 2020. Mr. Baker asks that there be a plan in place to have the pavers taken care of, he has seen other places with pavers that are not kept as far as structure and landscaping. Mr. Bowsher also explains this is the large project for the 2021 street program, 10 additional roads will be done outside of Main Street. This is the City's portion of the project. ODOT will re-pave the rest of Main Street. This is phase one of the project and will take place from Davidson to Jackson. Ms. Lawson-Rowe wants to clarify that there will still be plenty of room for emergency vehicles on this portion of Main Street with the added parking. Mr. Bowsher explain there is not currently on street parking in Old Reynoldsburg. There is a speeding issue on Main Street. They are going to create a natural buffering that will help slow the traffic and reroute semi-truck traffic off of Main Street, which will help eliminate some ware on the road. ORC standard for emergency vehicles is 11 feet, and Main Street will be 12 feet, which will provide plenty of room for emergency vehicles. It will be similar to Bexley on Route 40 as far as alternated street parking in correlation with traffic times during the day.

Donna,
 Joe just sent me this, let me know if you need anything else.

Hi Jennifer,

The meals that you provided last year will be acceptable for this year as well. An alternative is to provide the artist a buyout for breakfast, lunch, and dinner typically 50-75 per person but if you have 10-15+ people each that can become pricey.

MPE already purchases all of the common hospitality and bus stock/dressing room items and you are currently only responsible for the lunch and dinners.

As far as security there has to be overnight security provided each night. We break down and store as much gear as possible to deter any theft. We understand anything is possible however we can not put in the contract any clause regarding theft or damage. We do carry adequate insurance for such instances.

Hope this info/explanations help!

MEMO

Date: February 7, 2020

To: City of Reynoldsburg

From: Ryan Andrews

Subject: 2020 Street Maintenance Program

Copies: Nick Mill

The following table summarizes the construction phase costs for both the street program base bid and the optional additional bids. Please review and let me know which of the additional bids, if any, the City would like to include in the construction contract. During our review, we noted that Strawser was the apparent low bidding on the Base Bid and Additional Bid 2, while Columbus Asphalt Paving was the apparent low bidder on Additional Bids 1, 3, 4, and 5. However, there is no combination of base and additional bids that would result in Columbus Asphalt Paving being the overall low bidder. Therefore, the costs presented in the table below are reflective of Strawser's bid pricing.

BID	STREETS INCLUDED	CONSTRUCTION COST*
Base Bid	Stouder Dr., Andrea Pl., Taylor Rd., E. Main St. (Repairs),	\$2,535,947
Add Bid 1	Deerfield Ct., Westlea Ct.	\$63,685
Add Bid 2	Wayfaring Dr.	\$238,248
Add Bid 3	Acadia Pl.	\$54,432
Add Bid 4	Wayfaring Ct.	\$43,951
Add Bid 5	Featherleaf Ct.	\$38,099

*Cost for Base Bid includes 10% contingency and construction management and inspection. Cost for Additional Bids all include 10% contingency.

For you budgeting consideration, please note that the current estimate for the Davidson Drive project, which will advertise for bids next week is:

Construction Cost	\$1,948,475
Construction Contingency (10%)	\$194,848
Construction Management and Inspection (10%)	\$194,848
Total Opinion of Probable Cost	\$2,338,171

Please let me know how the City intends to proceed with the street program construction contract. Feel free to contact me at 614-775-4555 with any questions.

Subject: East Main Street, Phase 1 (Davidson Drive to Jackson Street)
 Proposal for Survey, Design, and Bidding Services

Dear Mr. Bowsher,

EMH&T is pleased to present a proposal for survey, detailed engineering, and bidding services for the first phase of improvements to East Main Street. This project was the subject of Reynoldsburg's successful Ohio Public Works Commission (OPWC) Round 34 funding application, which will provide \$2,000,000 in grant and loan assistance. This improvement will include the following:

- Roadway resurfacing and spot full depth pavement repairs.
- Full Replacement of curb and sidewalks. Sidewalk replacement will include decorative elements such as brick pavement and/or special concrete finishing.
- Replacement of the 1930's era storm sewer with an upsized and improved storm sewer system. Storm improvements will incorporate rain gardens and/or other water quality features.
- Establish center island medians in certain portions of the corridor.
- Replacement and/or upgrading of the street lighting within the corridor with LED fixtures.
- Installation of new decorative mast arm traffic signals at the intersections with Lancaster Ave. (north leg) and Jackson Street.

The anticipated total project cost for the improvements proposed is approximately \$4,130,000 as outlined in the attached preliminary opinion of probable cost. It is our understanding that this improvement will be funded through a combination of OPWC, Franklin County Infrastructure Bank (FCIB), and local sources.

SCOPE OF SERVICES

EMH&T will provide surveying, engineering, landscape architecture, and bidding services necessary to prepare construction plans and specifications for these improvements. The scope of services will include:

1. Survey
 - a. Survey – Horizontal and vertical control will be established for a basis of design and construction. Topography necessary for the design will be acquired within or directly adjacent to the established right-of-way. Survey will be obtained on the State Plane Coordinate System and NAVD 88 vertical datum. It is anticipated that full survey of the right-of-way corridor will be necessary to fully characterize all of the underground utilities and surface features in the corridor.
 - b. Right-of-Way Determination – We will conduct fieldwork and courthouse research necessary to determine the right-of-way limits within East Main Street to verify that the designed improvements do not encroach on private property without easements or rights of entry.

- c. EMH&T will prepare legal descriptions for necessary easements and/or right of way acquisition. This proposal assumes that approximately 10 legal descriptions will be prepared to support the improvements. If additional survey documentation becomes necessary through the course of design, additional fees may be requested.
- 2. Project Management
 - a. EMH&T will coordinate and lead meetings between the design team, City of Reynoldsburg, and any other projects stakeholders. This will include one project kick-off meeting with a site visit and monthly project coordination meetings throughout the design phase at various decision points or project milestone dates.
 - b. We will develop a project schedule that corresponds to the OPWC requirement for bidding in March of 2021. EMH&T will update the schedule throughout the course of design to reflect current project status prior to each update meeting.
 - c. EMH&T will manage subconsultant's schedules, coordinate their involvement in project meetings, and incorporate their work into the project plans and specifications. It is anticipated that subconsultants will be used for the following:
 - i. Geotechnical Services – GCI, Inc.
 - ii. Landscape Architecture – OHM Advisors
 - iii. Electrical Design – Bill Mess Engineering
 - d. Due to the amount of coordination that will be necessary with the local businesses, it is anticipated that the City would want to host one or two public information meetings. EMH&T will provide and distribute meeting notices, prepare project exhibits/plans for the meetings, and lead project discussions during two public information meetings.
 - e. Staged submittals at the 30%, 60%, and 100% design phase will be prepared and provided to the City, utility companies and any other project stakeholders for comment.
- 3. Roadway Plans and Specifications
 - a. Develop base map using topographic survey, record plan and GIS information to serve as the backbone for detailed design efforts.
 - b. Coordinate with a geotechnical sub-consultant to obtain pavement cores/borings along the project corridor to acquire information relating to the existing pavement composition and subgrade condition. This data will be used by EMH&T in the development of pavement rehabilitation strategies.
 - c. Roadway drawings will be prepared to show the horizontal layout of the roadway improvements. This will include the following:
 - i. Evaluation of turning radii at existing intersections. There are several “tight” intersections along this corridor where vehicles routinely drive over the curb and sidewalk. EMH&T will evaluate these intersections using AutoTurn truck turning templates to determine if geometric improvements to the intersections are needed. The short building setbacks may limit the opportunities to enhance turning movements in the roadway. We will develop exhibits and options for coordination with the City prior to incorporating radii improvements into the plan.
 - ii. Locations of sidewalk improvements and landscape / raingarden areas will be incorporated into the horizontal alignment of the roadway. EMH&T will coordinate with our landscape architecture subconsultant (OHM) on the location and layout of street trees and landscaping.
 - iii. Drive approach replacements, street medians, curb ramp improvements, street light pole locations, and signal infrastructure will be shown in the horizontal alignment.
 - d. Since the roadway is being resurfaced, only minor adjustments to the profile grade will be made. EMH&T will establish curb profile grades for both sides of the roadway. Minor

adjustments will be made to enhance the flow of stormwater to the inlets.

- e. Driveway and intersection details, showing the proposed limits, grades, and drainage patterns will be prepared for each intersecting street and private driveway.
 - f. Roadway cross-sections will be prepared in 50-ft intervals.
 - g. Typical roadway sections, plan details, supplemental project notes and specifications will be prepared.
 - h. Due to the amount of property/business owner coordination required for this improvement, it is anticipated that individual property owner exhibits will be developed to clearly show the improvements in color over an aerial photo background. These color renderings are easier to understand than a plan set and allow owners to see the improvements as they relate to existing site features. EMH&T will prepare these exhibits and participate in meetings with business owners to discuss the improvements and how the project will affect their access. It is anticipated that 20 meetings total will be conducted.
4. Storm Sewer Plans
- a. EMH&T will review existing storm sewer records to identify current storm outfalls and locations of existing sewers within the project corridor.
 - b. We will assess the topography for the project corridor and adjoining parcels and develop a storm sewer tributary area map for the project.
 - c. Storm sewer calculations will be prepared using the rational method to size the proposed storm sewer replacement.
 - d. Stormwater quality calculations will be prepared to determine the required water quality volume and the tributary area map will be used to identify locations and sizing of rain gardens.
 - e. Storm sewer plan and profiles will be included in the plans.
 - f. EMH&T will coordinate with OHM on the development of rain garden details and specifications.
5. Traffic and Lighting Plans
- a. EMH&T will prepare traffic signal plans for new signals the intersections with Lancaster Avenue (north leg) and Jackson Street. The signals will be decorative mast-arm style and will be designed with radar detection, similar to other recent signal improvements in the City.
 - b. The existing street lighting circuit will be inspected and evaluated for reuse on this project. Where existing streetlights are not in conflict with other planned improvements, the foundations will be re-used (if possible) and new LED fixtures will be installed. When existing streetlights are in conflict with improvements, they will be removed and new foundations, conduits, and poles/luminaires will be installed in alternative locations. The final design will incorporate new and existing infrastructure but appear completely new.
 - c. Traffic control plans, which show pavement markings and roadside signage will be prepared and included in the construction documents.
 - d. EMH&T will develop a maintenance of traffic plan, which outlines a procedure for the contractor to maintain two-way traffic during construction.
6. Landscape Architecture (OHM Advisors)
- a. Prepare demolition plans for items within the existing streetscape corridor.
 - b. Prepare preliminary and final layouts for streetscape amenities to include brick pavers, buff-wash walks, rain gardens, crosswalks, concrete drive aprons, street trees, benches, light poles, and gateway features.
 - c. Prepare grading and drainage plans for streetscape corridor.

- d. Prepare planting plans for street trees and rain gardens.
 - e. Select materials and prepare specifications for streetscape and landscape items.
 - f. Prepare graphic renderings for use in public meetings and attend up to 2 public information meetings.
 - g. Prepare preliminary and final cost estimates for streetscape and landscape items.
 - h. Respond to RFIs from bidders on items relating to the streetscape and/or landscape plans
7. Permitting and Utility Coordination
- a. We will prepare a Storm Water Pollution Prevention Plan (SWPPP) and a Notice of Intent for the City to send to the Ohio EPA.
 - b. It is anticipated ODOT coordination will be required because this project abuts ODOT's Urban Paving project and the ODOT owned bridge over Blacklick Creek is within the project corridor. EMH&T will provide preliminary plans to ODOT and respond to their comments.
 - c. At the various design milestone stages, EMH&T will prepare plan sets for submittal to the private utility companies to confirm the location of their infrastructure and to determine whether or not any conflicts exist between existing utilities and the City's proposed improvements.
 - i. It is assumed that we will send plans to the utility companies three times during design (30%, 60% and 100% plans) and will have up to three utility coordination meeting to discuss any conflicts.
 - ii. We anticipate holding two utility coordination meetings with affected private utility companies to assess impacts, develop utility relocation requirements, and coordinate project schedules.
8. Bidding Services
- a. We will prepare the bidding documents and plan sets necessary to conduct public bidding for the construction of the improvement. It is assumed that we will provide 15 copies of the bid documents to the City. Tasks to be completed in conjunction with the bidding phase will include:
 - i. Bid document preparation
 - ii. Advertisement preparation
 - iii. Issuance of addenda, if necessary
 - iv. Bid tabulation
 - v. Review of bids and formal recommendation of award

The Scope of Services does not include inspection services during the construction phase or any efforts subsequent to the awarding of the Contract. Items specifically not included within the scope of this proposal include: construction inspection, construction administration, land appraisal, private utility relocation design, or environmental permitting. A proposal for construction administration and inspection services will be provided to the City when plans are completed and the project is ready for bidding.

DECIDUOUS TREES

Deciduous trees are used to help define spaces, create overhead canopies and provide shade. Trees can also help reduce wind and modify temperatures. Due to the narrow corridor along Main St. we are proposing the ‘columnar’ variety of trees, to reduce any conflicts with vehicular traffic.

Re: **Final Action for the Award of OPWC Infrastructure Funds – Round 34**

Dear Hon. Begeny:

The District 3 Public Works Integrating Committee (PWIC) took final action on December 13, 2019, to award \$27.8 million to 18 project applications submitted by Franklin County communities for funding consideration under Round 34 of the State Capital Improvement Program (SCIP), the Local Transportation Improvement Program (LTIP), and the Small Government Program.

The status of the applications submitted by your community is below:

<u>SCIP Project Recommended:</u>	<u>Grant</u>	<u>Loan</u>

Chair

All recommended SCIP/LTIP projects have been submitted to the Ohio Public Works Commission (OPWC). For projects approved by OPWC, funds will be available after July 1, 2020, and after the funding agreement with OPWC has been executed. If you have questions regarding this process, you should contact OPWC's program representative, Jennifer Kline, at 614-752-8118 or Jennifer.Kline@pwc.state.oh.us.

Please remember that, as agreed to in the application, **an invoice of up to 1% of the OPWC award amount will be sent in early April of 2021** to those communities awarded funding in Round 34 to help cover the administrative costs.

Staff is available to assist all communities and will attempt to keep the quality of the programs high while keeping administrative costs at a minimum. Over the past ten years the invoice amounts have averaged 0.6%; thus, a community awarded \$1,000,000 might expect to receive an invoice for \$6,000.
